REPORTED ZAIMIS HAS CHANGED MIND

Dispatches From Athens Say
He Has Consented to Re-
construct Cabinet

KING CONSTANTINE TO DISSOLVE PARLIAMENT

Was Announced by Athens
Newspapers Resignation
Had Been Accepted

London, Nov. 6.—Any hope which the entente nations may have entertained that the friendly neutrality of Greece might be converted into something more positive in their favor seems to have been dissipated by the latest news from Athens. It is reported that M. Zaimis has consented to reconstruct the cabinet and that the chamber of deputies will be dissolved.

Paris, Nov. 6.—The newspapers announce that King Constantine has definitely accepted the resignation of the Zaimis cabinet, says a Havas dispatch from Athens.

Visited by Russian Minister.
Athens, Nov. 6.—M. Zaimis received a visit today from the Russian minister to Greece, who, it is stated, expressed the opinion that the policy of dissolution and a general election, to which the king seemed inclined, would not accord with Greece's attitude of benevolent neutrality toward the entente. In such an event, the Russian minister added, it would be impossible for the entente to continue to believe that Greece's political policy was free and unprejudiced.

Italian Comment.
London, Nov. 6.—A special dispatch to the Times from Rome says: Italian newspaper comment on the Greek ministerial crisis is one of general satisfaction. The suggestion that the king may dissolve parliament and try to govern without that body is regarded as an indication that demobilization will be followed by a general election. This, it is argued, will weaken the position of Greece in every way. Meanwhile the people here seem resigned to any outcome of the crisis. The defection of Greece already has been thoroughly discounted and the feeling is that the quadruple entente will do better to manage without Greece, whose adhesion would complicate the various problems.

BELIEVES FIRE WAS CAUSED BY A BOMB

Statement of Captain of Rio
Lages; Bomb Exploded
in New York

Halifax, Nov. 6.—The fire in the cargo of sugar in the British steamship Rio Lages, which put in here late last night, the flames still smoldering, was caused by an incendiary bomb, according to a statement today by Capt. Bell, master of the vessel. The fire is virtually out now after having been fought with steam and water continuously since it was discovered early Thursday, the fourth day out from New York.

Capt. Bell said the cargo, which was consigned to the British sugar commission at Queenstown, had been loaded by Austrians at Yonkers, N. Y., and that there had been ample opportunity for it to place an incendiary bomb in the sugar bags. He added that spontaneous combustion, such as occurred at his vessel carried was almost unknown.

Bomb Exploded.
New York, Nov. 6.—A bomb was exploded today in the building next to the Italian consulate at Spring and Lafayette streets. G. Farafoni, the Italian consul-general, was in his office at the time. Neither he nor the attendants at the consulate were hurt. Buildings in the neighborhood were rocked by the explosion and glass was shattered in the consulate.

50TH BATTALION HAS REACHED MOTHERLAND

Ottawa, Nov. 6.—News has been received of the safe arrival at a British port of the transport Orduña, which sailed from Canada on Oct. 27. On board were 44 officers and 1,040 men of the 50th Battalion (Calgary), 6 officers of the Medical Corps, and 1 officer and 12 men of various other regiments.

BEING FORCED BACK BY THE RUSSIANS

Germans Are Yielding to Pres-
sure in Region of Lake
Swenton

HAVING TROUBLE WITH NEW DRAFTS OF MEN

Austro-Germans Have Lost
28,000 Men in Galicia
Since Nov. 1

London, Nov. 6.—The fortunes of war are showing the customary fluctuations along the eastern front. Vienna claims that the Russian thrust along the Strypa has been repulsed completely. Petrograd announces that the attack of the invaders' west of Dvinsk was beaten back with one thousand of their dead lying on the field. In the defence of Riga the Russian troops now are assisted by warships, which have been shelling German positions near Shlik.

Falling Back.
Petrograd, Nov. 6.—In the Riga region the activity of the Germans is confined virtually to the Shlik sector, where they attacked at Hagenzom, at the northeastern extremity of Lake Kaniger. The attack renewed at Kemmern also was unsuccessful.
In the Dvinsk sector the Russian pressure southwest of the Lake Swenton line is forcing the Germans westward to their new defensive positions. Incidentally the Russian offensive energy above the district is calculated to influence the German operations in the region of Ilonkist and to the east of that place.

A letter found in the body of a German officer declares that the Russians are fighting as never before and that German failures possibly are due to recent drafts of worthless men who are ready to bolt the moment the Russians appear.
Heavy Losses.
Geneva, Nov. 6.—Since November 1 the Austro-German forces in Galicia have lost 28,000 men and 14 guns, according to a dispatch received here today from Lemberg. The Russians also are reported to have taken the offensive in Volhynia.

Southwest of Dvinsk, according to other messages received here, the Russians have captured 1,300 Germans and have occupied five miles of German trenches in the region of Ilonkist.
Berlin Claims.
Berlin, Nov. 6.—The Austro-German forces in Galicia are said by the war office today to have won a further victory over the Russians in the fighting along the Strypa river. The Russians were thrown back to their old positions on the east bank of the river. In the recent fighting there 50 Russian officers and 6,000 men have been captured.
The army of General von Linsington, captured further Russian positions northeast of Rudka. Russian attempts to break through the German lines on the Dvinsk front were futile, the report states.

CANADIAN HOSPITAL MOVED TO SERBIA

Interesting News Contained in Letter
From Major Bell to
Mrs. Bell

Ottawa, Nov. 6.—That No. 2 Canadian stationary hospital, in charge of Col. Shillington, is being moved from its quarters at Le Touquet, France, to Serbia, is the most important news received from Major Bell, who is in command of the hospital. At the time of writing all the equipment of the hospital had been packed, and it is altogether likely that by this time the hospital has been established in its new quarters. In what part of Serbia the hospital was to be located Major Bell did not state.
This news probably indicates that Canadian battalions are included in the British divisions en route to Serbia.

AMERICAN NOTE WAS PRESENTED YESTERDAY

Washington, Nov. 6.—Secretary Lansing announced today that the American note to Great Britain on interference with neutral trade was delivered to the British foreign office yesterday and by mutual agreement will be published simultaneously in this country and in Great Britain Monday morning.

FIREMEN UPHELD BY CUNARD OFFICIALS

Liverpool, Nov. 6.—Firemen on the Cunard liner Saxonia, ready to depart today for New York, refused to sail on the vessel if "Irish would-be sailors of military age" were permitted on board. The Cunard officials upheld the firemen and refused to carry the men who were of service age.

KING'S PHYSICIANS ISSUE LAST BULLETIN

London, Nov. 6.—Continued improvement in the condition of the king, who was injured last week by a fall from his horse in France, was reported today in the following official bulletin:
"The king had a better night. He was able to be moved to a couch for a few hours. He is progressing satisfactorily, but it will be some time before he is well enough to leave his room. No further bulletins will be issued."

ARE RETURNING TO NEW WESTMINSTER

Pte. H. W. Thornton, Suffering
From Effects of Gas, is
in Winnipeg

PTE. W. DAVIS, WHO WAS WOUNDED, IS WITH HIM

Winnipeg, Nov. 6.—The horrors of war never were more forcibly brought home to this city than by the sight witnessed at the depot today. Tears were brought to the eyes of hundreds of men and women who lined the platform by the pitiful sight of an able-bodied man in prime of life suffering from the effects of gas so badly that he had no control over his limbs and was gasping for breath.

There were only two soldiers returning and they are the first of those invalided home who returned on the Scandinavian. They are Pte. William Davis and Pte. H. W. Thornton, both of New Westminster, who joined in Vancouver. They will spend several days in this city before proceeding home. In fact, Pte. Thornton's condition is such that he is absolutely unable to go any farther, and immediately the Returned Soldiers' Association, under whose auspices he will be taken care of, summoned the best medical aid and nurse.

Pte. Thornton was an original member of the Princess Pats and he was "gassed" at Ypres. For many weeks his life was despaired of. His strong constitution, which now seems to be completely ruined, alone is responsible for his surviving. He is the only son of an aged mother, and his urgent request on arrival was that a telegram should be sent to his mother stating he was all right and would be home shortly.

Pte. Davis is looking after him like a brother, although he is suffering himself pretty badly. Pte. Davis went through the fighting at Festubert and Givenchy and was struck by a flying sandbag. All his front teeth were knocked out, he was blinded, an affliction which remained with him for three weeks, and hurt severely in the side. He was a veteran of the British army and served in West Africa and Somaliland.
"I chased the Mad Mullah," he dryly remarked, "but that was an interesting expedition compared with this."
Pte. Davis vows he will see his friend safely home at New Westminster.

"I got anxious just before reaching Winnipeg and thought Thornton would never reach this city, but thanks to the kindness of the Returned Soldiers' Association, I think he will pull around all right. I cannot say how relieved I was to receive such assistance from the people of Winnipeg."
Dr. CHOWN, one of the five doctors in the city who have volunteered their services free to returned soldiers, is attending Pte. Thornton, and no expense is being spared to give the two men the comforts and attention they deserve.

NORTHLIFFE PREDICTS REVOLUTION IN STATES

London, Nov. 6.—Lord Northcliffe predicts editorially that the United States soon will be in the throes of a mighty revolution. He declares that the internal reflex action of the great changes taking place in Europe will have its irresistible effect on the United States and that as a consequence this nation will go to war with itself.

"I have been through the slums in Chicago and New York and know the conditions that are making for a revolution," he writes. "The United States is certain to have an internal upheaval."

TO THE EASTERN THEATRE OF WAR

Announced Officially Kitchener
Has Gone at Request of
His Colleagues

RUMORS SET AT REST BY STATEMENT TO-DAY

Mr. Asquith in Charge at War
Office During
Absence

London, Nov. 6.—It was announced officially this evening that Field-Marshal Earl Kitchener has gone to the eastern theatre of war. The official statement reads:

"Earl Kitchener, at the request of his colleagues, has left England for a short visit to the eastern theatre of war."
It was stated officially yesterday that Mr. Asquith was in charge at the war office during Earl Kitchener's absence.

London, Nov. 6.—The Post says that Earl Kitchener has been entrusted with an important mission to the Near-East, and already has departed from London. "It is generally believed," says the Post, "that Earl Kitchener's business will necessitate a stay so prolonged that it will be necessary to fill his place at the war office before long. It is true that he has not resigned, but the importance of his present errand makes it certain that his resignation is only delayed."

"The suggestion has been made that Lord Haldane be brought back to the war office, but this probably is unfounded."
Retraction of the report that Earl Kitchener had placed his resignation as secretary of state for war in the hands of the king brought forth an official announcement to the contrary yesterday.

According to the Daily Graphic, Earl Kitchener, at the king's own request, saw the king on Thursday, as was announced yesterday.
The Graphic, urging the government not to delay the disclosure of the actual facts, suggests that Lord Derby, who is now in charge of recruiting, would make an excellent war minister.
The policy of the government in respect of both the Dardanelles expedition and the Serbian campaign has been subjected to severe criticism in Britain, and the statement of the Post is correct, the war secretary presumably has been sent to the Near East to determine by personal inspection the proper policy for Great Britain or to supervise some movement of importance already decided upon.

VISITED NAVY YARD IN SEPTEMBER LAST

Fay and Others Appeared at
Washington Yard; Forced
to Leave

Washington, Nov. 6.—The officials of the department of justice, who are watching developments in the plot of Lieut. Robert Fay, of the German army, and his accomplices, to interfere with shipments of munitions from the United States to the allies, are considering whether to ask for indictments against Fay and at least two others who attempted to gain admission to the Washington navy yard last September. If the government can show a conspiracy to obtain secrets of the yards there might be proved a violation of the National Defence Act.

Fay and the others appeared at the local yard early one morning with the usual crowd of workmen. They were allowed to walk some distance into the yard, but not to enter any of the shops. They were overtaken and escorted to the office of the commandant, and after a short interview were put out.

While there are no docks in the navy yard here, there is a large plant devoted to construction of ordnance.

WILL NOT TAKE OVER WHEAT-CARRYING SHIPS

Washington, Nov. 6.—To increase the receipts of American wheat, Great Britain has announced, according to today's consular dispatches, that wheat-carrying vessels arriving in a United Kingdom port shall be exempt from requisition for military purposes. An announcement by the state department says:
"The British board of trade announces that vessels loading by Dec. 15 with wheat from an American Atlantic port shall be exempt from requisition on arrival at a United Kingdom port, and free to start another voyage, not necessarily North Atlantic, after discharge of cargo."

BULGARIANS DEFEATED IN SOUTHERN SERBIA

Babuna Pass, at the entrance of which the Serbians, aided by British and French forces, defeated the Bulgarians and put them to rout, driving them toward Veles, is about six miles northwest of Perlepe. Valandovo, from which the French drove the Bulgarians to the north and northeast, is in the southeast corner of Serbia.

EMPEROR LEFT TOKIO TO-DAY FOR KIOTO

Coronation Ceremonies in Ja-
pan Have Begun; Thou-
sands in Streets

Tokio, Nov. 6.—Yoshihito, Emperor of Japan and 122nd head of the Japanese imperial house after the first emperor Jimmu whose reign began 2575 years ago, left Tokio today for Kioto to make his state entry into the capital of his forefathers and there formally accede to the throne of the Empire of the Rising Sun. The monarch was to have been accompanied by Empress Sadako, but the absence of the empress when her majesty is expected to give birth to another heir prevented her from participating in the ceremonies.

The imperial carriage was preceded to the railroad station by the "Kashikodokoro" or Divine Mirror, which represents the spirit of the grand imperial ancestor or Sun Goddess, Amaterasu Omikami, and was accompanied by the two other sacred treasures which symbolize the sanctity and power of the throne of Nippon, the sacred sword and the sacred jewel, sometimes known as the necklace of pearl-like gems. With the magnificent cortege, which have been handed down from emperor to emperor through untold generations.

City Crowded.
The whole city of Tokio is in joyous festal unexampled in Japanese history since the triumphant entry of Emperor Mutsuhito nearly fifty years ago. Hundreds of thousands of people are here from the provinces, most of them to remain until the great celebration in Tokio at the end of the month when the emperor returns from Kioto.

Prior to the departure of the imperial cortege a solemn religious ceremony was performed at the imperial sanctuary in the palace.

The ceremony having closed with solemn chorals of music, the holy of holies, which is the Sacred Mirror, was slowly borne outside the palace to be taken to Kioto, together with the sacred sword and gem. The sacred treasures, which are the emblem of the throne, being held in the deepest veneration and respect, their departure from the capital was celebrated in a most august and dignified manner.

On Shoulders of Villagers.
The "Kashikodokoro" was transferred in this way. An ancient palanquin, which is called the Feathered Wheels of Heaven, was brought to the southern porch of the imperial sanctuary. Then the palanquin was slowly borne to the station on the shoulders of villagers from a suburb of Kioto—a village to which this honor has fallen from time immemorial. They wore the ancient kimono costume of the sanctuary guards.

As the royal cortege left the palace the thunder of saluting guns from the public parks informed the multitudes of the metropolis, and that was the signal for silent prayer for the joyous departure of the emperor for his beatific accession and his safe return to the capital. For all to witness the royal departure was physically impossible. Thousands had arrived along the line of progress last night to await patiently throughout the long hours. The great majority who were unable to find places will be able to witness the royal cortege when the emperor is officially greeted by the city of Tokio.

The emperor rode to the railway station in a coach of regal magnificence through lines of picked troops from the Household Guard.

The procession from palace to station moved slowly by a somewhat circuitous route, so that it might be viewed by as many people and especially by as many schoolchildren as possible. First rode mounted police inspectors, then cavalry of the Imperial Guard in their new glittering coronation uniform. Next came the imperial ancestral shrine, which was borne on the shoulders of villagers from Kioto and which was guarded by the imperial

GERMANS STATE NISH HAS BEEN CAPTURED

Say Bulgarians Entered City
After Three Days of
Heavy Fighting

London, Nov. 6.—Additional details were received today concerning the victory which the Serbians have won over the Bulgarians at Isvor, situated at the entrance to Babuna Pass, in the southern section of the country. British cavalry and French infantry are said to have taken part in the battle. The Bulgarians having been routed and being in full flight for Veles, the safety of Perlepe and Mopastir is assured and the way to Uskub may be paved.

The Bulgarians are within a short distance of Nish. According to one account, they actually have penetrated the city. Their Austro-German allies have reached Paracutin, an important junction point on the railroad, fifty miles northwest of Nish.
Announced Officially.
London, Nov. 6.—A statement issued by the Serbian legation here today ran in part:
"The allies have registered a brilliant victory at Isvor."
Bombarded Again.
Paris, Nov. 6.—Points on the Bulgarian coast on the Aegean sea have been bombarded again by the allied fleets, according to advices received here today.

British warships shelled the town of Enos, European Turkey, for two hours.
Heavy Firing Heard.
Budapest, Nov. 6.—Heavy firing was heard off Burgas, Bulgaria, yesterday, according to a dispatch received here today from Sofia. It is believed the Russian Black sea fleet and Turkish warships have been engaged in battle.

HOPE TO OPERATE IN MEDITERRANEAN

Having Failed About British
Isles; Germans Seeking New
Field for Submarines

Paris, Nov. 6.—The Straits of Gibraltar again have been passed by German submarines, which on Thursday sank one Italian and two French steamships. The crew of one vessel is missing.

The following statement was issued by the ministry of marine today:
"Enemy submarines, coming from the Atlantic, passed through the Straits of Gibraltar on the night of November 2. They sank on November 4 the French ship Dajra, off Arzeu, Algeria, and the French ship Calvados, and the Italian ship Ionio, near Cape Ivi.
"The crews of the Dajra and the Ionio were saved. There is no news from the crew of the Calvados."

News of the presence of a number of German submarines in the Mediterranean bears out information received from a private source recently, to the effect that Germany had decided to send most of her submarines to the Mediterranean, having virtually abandoned her campaign in British waters in consequence of the agreements she had entered into with the United States.

This disclosure is said to have been made in the form of an announcement by the German minister at Bucharest. There is no doubt whatever, despite this announcement, that Germany's abandonment of her submarine campaign in the waters about the British Isles was due to the effective measures adopted by the British navy and the large number of German submarines captured or destroyed. Activities of submarines in the Mediterranean, it is believed, are designed to divert attention from the ending of the campaign near the British Isles, as well as to impress the Balkan States.

MOVING PICTURES OF ESKIMOS MADE

Ottawa, Nov. 6.—The naval service department has received a report from Dr. Anderson, head of the southern branch of the Stefansson expedition. It states that when the explorer comes back to civilization he will bring a rare collection of biological and zoological specimens, probably the most valuable of any ever brought out of the north.
Dr. Jenness, the ethnographical expert of the party, has secured many phonographic records of Eskimo songs and their language. They will be reproduced and studied at leisure. Moving pictures of the diminutive people of the Arctic also have been secured.

THINKS SITUATION

HAS GROWN CLEARER

Dispatch Sent to Cologne Gazette by Its Correspondent in Serbia

Berlin, Nov. 6.—The Cologne Gazette publishes the following special dispatch from its correspondent in Serbia: "Headquarters of the army of Field-Marshal von Mackensen. The situation has cleared as regards the position of the allied armies of the central powers on all fronts. No intervention from outside now can prevent complete victory for our offensive in Serbia."

"There remains to the Serbians the possibility of dragging out the war by retreat to Montenegro, but even this manoeuvre offers them little promise of an effective defence against the Austro-Hungarian forces which have been pressing forward from Bosnia. They already have captured Uzice and several other important key positions, and are advancing rapidly behind the Serbian line of retreat."

"While the Bulgarians and the army of General von Gallwitz, advancing from the east, are approaching Nish, other army groups of the German forces are moving forward in the Morava valley against the lines of communication in the west of Nish."

"The troops of General von Koenigs are threatening the last, strong, defensive positions lying farther in the interior of the country where the enemy may be expected to make his last stand."

"If the Serbians are defeated there also, their resistance by guerrilla warfare is hardly to be expected owing to the enormous superiority of the allied forces now pressing in from all sides and the impossibility of replenishing their supplies of ammunition. The probability of an effective Serbian resistance is increased by the fact that the armies of the central powers, during the campaign in the Carpathians, learned the art of mountain warfare in the most difficult possible circumstances."

"There is a possibility of a sudden change in the situation, which may lead, earlier than was expected, to the abandonment of the bravely conducted defence of the Serbians, in recognition of its hopelessness."

GERMAN AEROPLANE

WAS BROUGHT DOWN

French Tells of Five Air Fights; Violent Fighting in Champagne

London, Nov. 6.—The following report from Field-Marshal Sir John French was made, public last night:

"Yesterday five air fights took place, resulting in a German aeroplane being brought down in our lines."

"Since November 1 the weather has been very wet. Mining activities continue on both sides."

Paris, Nov. 6.—The war office issued the following communication last night:

"Artillery actions have continued during the day in Artois, especially in the Loos sector."

"In the Champagne, fighting is going on with the same violence in the region to the north of Massiges. During the recent attacks delivered with the same methods and with heavy efforts, the enemy was able to push a few elements into our first line, trench at Hill 139. Everywhere else the enemy was stopped or completely repulsed by our counter-attacks."

"In the Vosges, one of our mines has destroyed at La Chapelle (east of Bagny) a German 'bunkerhouse.'"

"The Belgian war office issued the following statement yesterday:

"The enemy's artillery has been active and has continued shelling our positions to the northeast of Oostkerke and to the south of Saint Jacques Capelle. Our batteries have replied vigorously, and have executed acts of retaliation against Lake and Saint Pierre Capelle."

VILLA'S PLAN FOR SECURING DOCTORS

Douglas, Ariz., Nov. 6.—Information from several reliable sources to-day definitely contradicted General Villa's statement to General Frederick Funston and other American army officers at Naco, Ariz., yesterday that Dr. H. R. Thigpen, chief surgeon of the Cananea Consolidated Copper company, his assistant, Dr. James Miller, and two American chemists, J. D. Pylant and A. L. Wilson, had been killed Wednesday by Carranza riflemen near Agua Prieta.

The four men are declared to be prisoners at Villa Verde, 20 miles south of Naco and the belief is generally expressed that Villa deliberately told the story of their death in order that he might hold them and supply his urgent need of surgeons without being subjected to inquiry or the necessity of giving them up.

PROGRESS WAS MADE

IN REGION OF RIGA

Russians. Repulsed Germans. South of Lake Swenton. Inflicting Heavy Losses

Petrograd, Nov. 6.—The war office gave out the following statement last evening:

"Near Riga yesterday our troops progressed slightly toward the west of Lake Akkei. Artillery fire and rifle fire continue all along the front in this region."

"In the region of Jacobstadt and on the Dvina there is no change in the situation."

"Near Dwinsk, south of Lake Swenton, the enemy at 5 o'clock this morning made an attack against the village of Blatonowaka, which was repulsed with heavy losses. So far over a thousand dead have been counted on the field. Further south calm prevails as far as the Pripiet."

"To the west of Rafalovka, on the Styd, the enemy on the evening of the 3rd delivered an attack from the village of Kostukhonovka. After a fierce fight, during the night our troops drove off the Austrians, capturing two guns, three machine guns, 250 prisoners and a large quantity of arms and ammunition."

"In the region of the village of Wolsk, north of Novos Alexandria, we attacked enemy forces which had approached our entanglements. The enemy was driven back after a bayonet fight. We captured three officers and 100 men."

"Fierce fighting continues on the right bank of the Styr, in the region of Stenikowice (east of Galtch), the fire being directed on both sides being very heavy."

"Our ships opened fire against the German positions near Stenikowice, west of Riga."

"The situation in the Caucasus is unchanged."

Berlin Statement.

Berlin, Nov. 6.—The following official statement was given out yesterday:

"In spite of extraordinary losses, the Russians have repeated their fruitless attacks between Lakes Swenton and Bisen and near Galtch."

"General von Linsingen's troops have repulsed the Russians northwest of Charzysk into their former positions after a temporary advance by the enemy."

"North of Konkarov, two Russian counter-attacks failed. East of Radika, the Germans have advanced."

"An attack by General von Bothmer's forces against the Russians defending a part of Stenikowice was successful. Two thousand Russians were captured."

Austrian Statement.

Vienna, Nov. 6.—The following official communication was issued last evening:

"The fighting around Stenikowice was concluded to-day with the complete repulse of the Russians from Stenikowice. The enemy lost 2,000 prisoners. The Transylvanian front was fought uninterruptedly for four days and nights, and had a most prominent part in the recapture of all our positions."

"West of Rafalovka the enemy penetrated our line but was repulsed by counter-attacks. The fighting has not yet terminated."

"In the northeast, on several parts of the front, there is considerable artillery activity."

FEWER CASES FOR THE MAGISTRATES

London, Nov. 6.—The effect of the new anti-treating order has been felt immediately in the police courts in the morning districts. Where the North London magistrate dealt with 14 cases of drunkenness on a certain day, on the same day this week he had but three. Similar reductions were noted in the East End districts. The public house owners complain that when men pay for their own drinks in a crowd, they seldom take more than one. But there has been no organized protest, as the owners know that if the anti-treating order proves a failure, the hours of opening will be materially reduced.

32,400 IN CAMPS.

London, Nov. 6.—There are 32,400 Germans and Austrians in the alien internment camps in England at the present time, notes a circular from the home secretary. Nearly 9,000 aliens have been repatriated. The number of exemptions from internment is 7,200. The number of women exempted from the repatriation rule is about 16,000.

STATEMENTS INVITED BY NEW COMMISSION

Farmers' and Industrial Organizations Are Asked to Supply Information

Ottawa, Nov. 6.—After the first meeting of the Dominion economic commission yesterday under Senator Lougheed's chairmanship, the following statement was given out by W. J. Black, the secretary:

"The order-in-council setting forth the objects of the commission was considered carefully and plans and procedure discussed. It was decided to make such investigations as would enable the commission as speedily as possible to become intelligently informed on questions relating to the most urgent needs of the Dominion. To this end statements will be invited from farmers' organizations, including livestock breeders, grain growers, fruit growers and stock dealers' associations. Industrial and other organizations concerned directly with shipping and transportation interests also will be called upon immediately to assist in the investigation.

"Later leading authorities on the various subjects connected with Canada's development will be called upon to give evidence. It is the hope of the commission that every public-spirited organization in the Dominion will interest itself in the subjects which the commission has under consideration and render such aid as its conclusions make possible."

PRESIDENT WILSON'S CAR STRUCK A SMALL BOY

New York, Nov. 6.—President Wilson's automobile struck and injured a small boy yesterday while the president was motoring to the Pennsylvania station to catch his train for Washington. The boy apparently was more frightened than hurt.

GENERAL GREGORIEFF LEFT THE FORTRESS

Petrograd, Nov. 6.—Absence from the fortress of Kovno during the fighting there and inadequate preparation of the defence were charged against General Gregorieff, who was commander of the fortress when it fell. In the court-martial proceedings at Dvinsk, which resulted in his receiving a sentence of fifteen years at hard labor and the loss of all his rights.

MORE STUDENTS WITH COLORS THIS YEAR

Heavier Drafts Made on Student Bodies of France Than Last Year

Paris, Nov. 6.—The student life of France goes on uninterrupted, though somewhat modified by war. The mobilization drew more upon professors than students last year. At this year's reopening of the schools it was found that heavier drafts had been made upon the students of colleges and universities. In the primary schools and lycées the attendance, though less than the average, exceeds that of last year; the increase is made up largely of refugees that did not attend school last year.

At the Louis-le-Grand lyceum, the oldest in Paris, there are 900 students, as against 800 last year and 1,000 average. More than 150 of last year's pupils at this lyceum are in the army. Only 25 per cent. of the usual number of students are registered at the Fine Arts school and other sections of the university have suffered equally; the medical school even more, most of the professors being in the sanitary service. In the art schools the tendency to modernism has not been shaken, but it has been cleared of frills and extravagance. The artist student is taught to take nature and improve upon what ordinary mortals see of it, but in such rational form that any one can readily distinguish forms and features. The subjects are serious. The material is largely marine, very little of battlefields or other war scenes, excepting in the work of students who have been or still are at the front.

BULGARIANS DRIVEN BACK IN THE SOUTH

Defeated at Babuna Pass and in Southeast Corner of Serbia

London, Nov. 6.—The Bulgarian army descending into Old Serbia to invade Macedonia by way of Vukob and Perlepe, was defeated at Babuna Pass, after a battle lasting several days, according to an announcement made by the Serbian legation at Athens and transmitted to Reuter's Telegraph company.

French infantry and British cavalry took part in the struggle and gave efficient aid to the Serbians. The British horsemen arrived from Krivolak to assist their allies.

The Bulgarians captured Isvor and Gradsko. The Bulgarians, whose ranks are said to have been decimated, are retreating in the direction of Vukob, and have evacuated the right bank of the Vardar river.

Babuna Pass is about six miles northwest of Perlepe.

Rome, Nov. 6.—The total Bulgarian losses in Serbia are established at 50,000, says an Athens dispatch to the Giornale d'Italia, which recounts the capture of Babuna gorge and Isvor by Serbians and French troops.

Anxiety is being caused in Sofia, the dispatch asserts, by the increasingly energetic resistance of the Serbians.

Salonica, Nov. 6.—The Bulgarian force which has been engaged for several days in a battle with French troops around Valandovo has been driven back beyond Koutsavona almost to Radovitsa, according to reports received here. The battle continues near Strumitza.

ITALIANS STRENGTHENING CONQUERED POSITIONS

Rome, Nov. 6.—The following official statement was made public last evening:

"During yesterday there was intense action by our artillery and infantry, which are actively engaged in strengthening conquered positions. We repulsed enemy attacks in the valleys of the Reims and the Pontebian torrents, on the slopes of Monte Calvario, north-west of Bergamo, and on the other side of the front. We have taken 64 prisoners and one machine gun."

"Bad weather prevails throughout the theatre of operations. There is an abundance of snow in the higher zones and persistent rain in the lower."

Vienna, Nov. 6.—The following official statement was given out yesterday:

"Near Gorizia the situation is calm. There has been a violent artillery fire on the bridgehead of Gorizia and the northern part of the plateau of Dobrovo. Isolated Italian attacks collapsed. During the night six attacks against Zagora were repulsed."

"An Italian airship threw bombs on Mirafior."

THROWN BY FATHER.

Prince Albert, Sask., Nov. 6.—The jury inquiring into the death of Mike Jakubson, whose death occurred about three years ago and was alleged to have been caused by his father's brutality, brought in a verdict that the deceased "came to his death by an iron rod penetrating his head, thrown by his father, Joseph Jakubson." Jakubson's wife and a son and daughter gave evidence against him.

MANY GERMANS STILL ARE LIVING IN ITALY

Existing Relations Between Italy and Germany Subject of Interest to Observers

Rome, Nov. 6.—Existing relations between Italy and Germany again are a subject of interest among Italian political observers owing to the lack of a declaration of war upon either side and because both countries seemingly are avoiding anything which might embitter their intercourse.

Reports from Berlin say that several thousand Italian workmen still are living in Germany unmolested and enjoying the thorough protection of the authorities, while many Germans continue to reside in Italy without suffering any injury.

What is more remarkable, in the opinion of prominent Italians, is that negotiations actually are taking place with a view to an exchange between the two countries of certain products which do not bear directly on the war. In some well informed quarters it is thought that when Italy denounced the triple alliance and joined the triple entente, she made a declaration to the entente that her participation in the war was limited to fighting Austria-Hungary, with the object of conquering the Italian provinces still subject to Austrian rule, at the same time stating that she did not wish to extend hostilities to Germany. This situation, it is pointed out, might enable the two countries to help each other in given circumstances.

D. S. O. FOR PLUCKY YOUNG NAVAL OFFICER

London, Nov. 6.—Why the young navy officer who swam ashore from a British submarine in the Sea of Marmora and blew up the Lemniz railway bridge in spite of the Turkish guard should receive only the Distinguished Service Order has astonished the public, since so many lesser heroes have received the greater honor of the Victoria Cross. But the award was made under a rule that has long obtained in the service. Ever since Lieut. Holbrook, for taking his submarine through the mine field of the Dardanelles and sinking a Turkish warship had not the king himself intervened.

By the unwritten law of the service, the Victoria Cross is awarded for a deed of great gallantry performed without orders, and generally for saving lives under fire. The D. S. O. is for gallantry in following orders. Yet Lieut. Hughes, in blowing up the Lemniz bridge, acted on his own initiative from the time he left his boat until he was picked up again, and in popular opinion should have received the more coveted medal. It is a good deal like the case of Lieut. Warneford in attacking and wrecking a Zeppelin, which resulted in the bestowal of the Victoria Cross.

75 SOLDIERS AND 28 SAILORS SAVED

London, Nov. 6.—The statement issued by the war office last night regarding the sinking of the transport Ramazan was as follows:

"The war office announces that the British transport Ramazan was sunk by an enemy submarine by shell fire at 4 a.m. on September 19, off the Island of Antikythira, in the Aegean Sea. There were about 300 Indian troops on board, of whom 75 were saved. Twenty-eight of the crew also were saved. A number of lifeboats were smashed by shell fire.

"The survivors reached Antikythira in their own boats the same night and were kindly and hospitably treated by the inhabitants."

Previous announcement of the loss of the Ramazan came in a dispatch from Athens on September 20, which told of the presence of the survivors on Greek territory, whence they had been sent by the Greek government to Malta. No details regarding the loss of the transport were given at the time.

GERMANS HOPE TO SECURE FOOD FROM BULGARIA

Berlin, Nov. 6.—Arrangements have been completed for the importation into Germany of food supplies from Bulgaria, according to the Frankfurter Zeitung.

Well—that was "some" shave!

I would never have believed it

"I was told that it would pay me to throw away my old shaving powder and stick, and the rest of them and try this new Mennen's Shaving Cream. It seemed to me that all shaving soaps were pretty much alike, but, after this, Mennen's is my one best bet.

"I am converted—I am a 'Mennen booster' from now on. I did everything I could to make Mennen's Shaving Cream fail—using cold water and a dull razor blade. I thought it couldn't soften the beard without rubbing in—it did. I didn't think it would make a lather that wouldn't dry. The lather stayed fresh, and my face stayed moist. It was the easiest, quickest and most satisfactory shave I ever had."

MENNEN'S SHAVING CREAM

Mennen's Differs from Others

- 1—Absorbs an unusual amount of water, thus you need only 1/2 inch for every shave.
- 2—Lather remains moist for at least ten minutes, therefore no relathering.
- 3—The creamy lather will soften the beard itself. No rubbing in.
- 4—An indifferent razor makes good work with Mennen's.
- 5—No "free" caustic, but ingredients soothing to the skin.

TRADE COMMISSIONER AT PETROGRAD IN FUTURE

Ottawa, Nov. 6.—A vigorous campaign to encourage and develop commerce between Canada and her great European ally, Russia, is being instituted by the trade and commerce department. Sir George Foster has decided to open up a trade commissioner's office in Petrograd, and C. F. Just, former Canadian trade commissioner to Germany, who recently made a report on the opportunities for Canadian commerce in Russian, has been appointed to the post. Mr. Just will leave within a few days for Russia. He will be accompanied by at least two assistants, and probably will open offices also at Moscow and Odessa. Mr. Just was Canadian trade commissioner at Hamburg when the war broke out.

In Russia Mr. Just believes there is an opening for the creation of a tremendous commerce, both on the Atlantic and the Pacific. He already has made a preliminary report to the department, and has a fuller and more elaborate report now ready for publication. In the meantime, before returning to Russia, he is stirring up the Canadian manufacturers and exporters to the opportunities which are awaiting them in Russia.

Mr. Just passed through Victoria on his way back to Ottawa from Siberia a couple of months ago and described in the Times his tour of Russia and the facts he had learned there.

THE WAR'S PROGRESS.

Lord Kitchener's absence from London is explained in various ways. One report says he has gone to the Near East to examine the general situation with a particular eye to the outlook at the Dardanelles. There is much to support this view. The complications which have developed in that region must be countered with a comprehensive plan, in which Great Britain and, ultimately, Russia, will have to be the chief factors; for the number of men that France can spare for operations there is limited to the exigencies of the all-important western front. General Joffre's recent visit to England no doubt was for the purpose of discussing this aspect of the situation, as part of a general arrangement for the greater co-ordination of the military operations of the allies.

The capture of Nish is claimed by the Bulgarians. Their advance northward along the Morava would threaten the rear of the Serbian right flank, but the mountainous condition of the country, with whose every plateau and defile the defenders are familiar, may permit the Serbs to expiate the greater part of their forces without serious losses. It is evident that they have not risked a general engagement, for neither the Teutons nor the Bulgars have claimed any considerable captures of prisoners and modesty in recounting gains is the last characteristic we may expect in an enemy which must depend upon moral effect for the success of his operations.

In southern Serbia the Serbians and French, now being continually reinforced by the British, have inflicted a severe repulse upon the Bulgars, who after crossing the Vardar river attempted to move through the Babuna Pass with the object of capturing Monastir, immediately north of the Greek border. The enemy's repulse is reported to have been complete, with the Bulgars in retreat to the Vardar.

Political affairs in Greece are in a state of flux, with Constantine playing fast and loose with the constitution of the nation. He first attempted to induce Zaimis to form another ministry, and Zaimis declined, but according to later reports that statesman may accede to his sovereign's request. Constantine then will dissolve parliament and with a pro-German ministry at his back will be in supreme control, for no elections can be held while the army is mobilized. This constitutional government in Greece will be suspended for the time being at any rate. The McKend democracy will become nothing more than a Prussian protectorate. Whether the Greek people will tolerate the change it is hard to say. Certainly so far they have not given any indication of resentment at their alien king's trifling with the constitution.

In Greece is the unchallenged supremacy of the German clique which surrounds the throne, the allies will be forced to adopt drastic measures for their own protection. If their communications are to be made secure they must obtain from Athens a guarantee under the guns of their battleships.

The habit of treachery grows on a state once the turbulence of its rulers is condoned by the people. If they dared, Constantine, Gonaris and company would strike the allies in the back. It is not improbable that such a plan was in the king's mind when he endorsed the invitation of Venizelos to the allies to send troops to Salonica. The perfidy of Greece has been worse than the conduct of Bulgaria, for Greece posed as an ally of Serbia and assumed treaty obligations in that respect, while Bulgaria's hostility to Serbia was not concealed.

The reports, emanating from the Berlin Tageblatt, that Russia was landing troops on the Bulgarian-Black Sea coast, have been shown to be unfounded.

Russia, instead, is concentrating large forces at Rens, a point where the Danube touches the boundary between Roumania and Bessarabia. The Roumanian government is discussing the application of Russia for permission to send an army to Bulgaria by way of the Danube, and Petrograd apparently anticipates a favorable reply. To exert counter-pressure the Teutons have concentrated a force on the western frontier of Roumania, but this should not occasion any anxiety at Bucharest. The Huns have not sufficient men for another serious campaign.

ITS SACROSANCT IDENTITY.

One of the stock arguments of trade protectionists four years ago was that under the reciprocity arrangement Canadian wheat would flow to the United States, where it would lose its identity by being mixed with inferior American grades. This, of course, conflicted with the assertion from the same quarter that there was no market for Canadian wheat in the United States, but the argument was such a restful variation from the monotonous legend of annexation, parting of the ways, the ineligibility of east and west trade routes, imperial unity, save the empire, beware of Taft, look out for Champ Clark, and so forth, that the inconsistency was overlooked.

The Toronto News, however, heroically clings to the wheat identity argument, although most of its journalistic confreres have thrown it overboard. Apparently the News believes that as long as the identity of Canadian wheat as Canadian wheat is preserved inviolate all is well with the Canadian farmer and the empire. Whether the farmer is able to market his product and is confronted with bankruptcy is a negligible consideration. Yea, better grow no wheat at all than that the American miller should be permitted to buy it at a high figure and submerge its identity beneath the inferior wheat of his own country. What an abandoned commercialized creature the western farmer must be to think of dollars and cents with such a high principle at stake!

We presume that the counterpart of the Toronto News on the other side is using a similar argument, but not applied to wheat. The contention there might be that the American dollar should not be permitted to cross the boundary line into Canada in exchange for Canadian wheat because of the certainty that it would be mixed with Canadian currency and lose its identity. A well-known attribute of the ostrich is still apparent among reactionary political economists of the present era.

BEATEN, AND HER RULERS KNOW IT

As might have been expected, the industrious German press organizations are working at full pressure in the interest of von Bulow's latest attempt to open a gap in the ring of the entente allies. First came the grotesque report that there is dissension in the Italian cabinet; that one minister proposed peace and another threw a book at him. Next we learn that the most amicable relationship exists between Germany and Italy and that they are arranging to assist each other by an exchange of supplies. The object is to create distrust of Italy in the minds of her allies. A dispatch from Berne reports that von Bulow was expected to meet an "eminent Englishman." All this stuff emanates from the same factory. The operatives with their paraphernalia evidently have been transferred from Moscow and Petrograd, where their fiction that "Great Britain and France had abandoned heroic Russia" during the fighting last summer had no results.

In a recent article in the London Chronicle, the Rt. Hon. C. P. G. Masterman surveys Germany's situation in such a way as to make us thoroughly understand why she is so desperately anxious to negotiate for peace at this juncture. He says:

"For this is a world war and a world survey is necessary. If we are to obtain a true vision of Germany's present position. How does she stand today after a little more than a year of it? Her colonies, in which she took so much pride, have been snatched from her. Her international trade, which supported the bulk of her industrial population, has vanished like the baseless fabric of a vision. Her ships lie interred in ports of all the continents; her exports and all the profits which depended on her exports from Patagonia to Korea have ceased like the sudden shutting of a door. Her great floating palaces, which were her pride and the wonder of the world, each costing millions to build, are lying useless in her own ports or rotting in the ports of America, or having been converted into armed cruisers, like the Kaiser Wilhelm der Grosse. Her masses of twisted iron at the bottom of the Atlantic. She has a fighting fleet which cost three hundred millions (pounds) to build; and for any use it is the money might as well have been thrown into the sea; for it cannot prevent every ship desired getting into the ports of the allies, or insure one small German ship getting into one small German haven. Greece is growing in the streets of Hamburg and Bremen, and will grow there till peace comes. In internal affairs her efforts have made her hopelessly bankrupt. She dare not raise a farthing by taxation. She is carrying on the war by the simple expedient of mortgaging private property to the state, giving payment for such mortgages in paper money and then taking the paper money as a new loan to the government. The result is that six months after the war is over Germany would be compelled to convert or repudiate: for her paper money would be worthless outside Germany. In men, as I said, she has lost in the first year of war one-third of her fighting forces, permanent destroyed. Her opponents are ever piling up men and munitions against her, while she will be ever decreasing the proportion from this time forward. Germany is bleeding to death. She lashes out, like some wild beast in death agony, now westward to Paris, and is felled; now eastward to Petrograd, and is felled; now southward to Constantinople, where she should be felled again. Each time the effort is weaker and the exhaustion more obvious. Each time the hands are drawn tighter round her; and every month presses closer the slow, irrevocable strangling influence of our sea blockade. Germany is beaten and most of her rulers know it."

Sir Sam Hughes, our very active though sometimes indiscreet Minister of Militia and defence, is having a merry tilt with a certain Mr. Westman, who represents Regina in Parliament. The thrust and parry are purely verbal, of course, but they are likely to drain the political blood of somebody before the tournament ends. Hon. "Bob" Rogers is understood to be as eager as a squirrel for Westman, who proclaims his belief that Sir Sam is "batty." On the other hand, the Minister of Militia says the member for Regina is "crooked," and he can prove it. Yet a local contemporary holds there is too much politics in the daily grind of life. As to that, a good deal seems to depend upon the trend of political affairs. There is a political vendetta being waged between two of the prominent members of the Dominion cabinet, and Sir Robert Borden cannot arrange terms of peace; nor is harmony all pervading in the local administration. So perhaps it is no wonder that the Colonist is anxious for a political armistice.

The other day the Hon. Robert Rogers denied the rumor that he had instigated the attacks upon the militia department which have been appearing in the Winnipeg Telegram and another western newspaper controlled by him. The fact remains, however, that those newspapers have been conducting a persistent campaign against the department and through the department against Sir Sam Hughes, the minister. Moreover, if Mr. Rogers did not instigate it, he knew it was going on. Knowledge of the feud between him and his colleague of the militia department is common property, the two even going so far as to engage private detective agencies to watch one another. If anybody secures Sir Sam's scalp it will not be Mr. Rogers. The Manitoba exposures have drawn the fangs of the Minister of Public Works.

A well-known lecturer declares on the strength of Biblical prophecy that Germany will meet her doom in the Holy Land, the convenience of the forecast being assured by denouncing the Huns as Assyrians. Unfortunately for the prophecy, the military situation is against it. The southern theatre cannot become the decisive field of operations, which remains in the west where it always has been. The Turks and Bulgars, with good luck, might surge across the Bosphorus to the Holy Land in imposing force and be defeated somewhere between Damascus and Jerusalem, but that would be merely a local defeat and would not affect the main battle-fronts. We may rest assured that neither Germany nor Austria will bare its vitals in order to facilitate a Bulgar-Turkish campaign in the Holy Land.

The Bishop of Bamberg in a pastoral letter to his clergy expresses deep resentment at what he calls the usury practised by dealers in the necessities of life in Germany. He adds that nothing can palliate a course of conduct which is "unpatriotic and cruel and unworthy of a German in these times of bitterness and anguish." The deliverance is interesting as indicating that notwithstanding the laws and restrictions of the German authorities, usury and food monopoly continue to flourish. That sort of thing is one of the logical products of the Prussian system.

Germany boasts that she is financing her campaign entirely upon her own internal resources. She is doing it with money manufactured in her printing establishments. The result is that her paper has depreciated in value, and the things this paper currency can buy have correspondingly appreciated in value. The Kaiser's money is cheap and the food of the people is dear, and daily becoming dearer. Bread and meat riots already have occurred, and the worst is yet to come. The German people are going to have a hard winter.

Our morning contemporary modestly compliments itself a "rather" frequent performer on the fact that it leaves politics to journals of inferior calibre. What does it call those boom interviews with Sir Richard about twice a week? News?

CHURCH UNION.

To the Editor:—I am informed that a good deal of literature opposed to church union has been circulated among Presbyterians in this city. I would just like to say to those into whose hands that literature may have come: Do not be misled by it. Instead let me ask them to read the only authoritative statement made by our church in the documents which have been printed (and will be circulated) by the general assembly of the Presbyterian church in Canada. In these documents are to be found a history of the movement, two statements of 500 words each for and against union, and a copy of the basis of union.

I would also like to state certain facts:

1. The union vote at the last assembly stood 368 for and 34 against.
2. There is not one superintendent of home missions, not one foreign missionary and not one principal of our colleges whose name appears in the list opposed to union.
3. When the question was submitted

Why John Wanamaker Insured His Life for \$1,500,000

As a result of my own thinking, without any moving canvas except my own judgment, I deliberately worked out these five conclusions:

1. I was insurable, and accident or ill-health might come at any moment, when I would have been unable to work.
2. That life insurance was one of the best forms of investment, because it gave, after one deposit, an instant guarantee that might repay principal and interest and more.
3. That life insurance in the long run was a saving fund, that not only saved, but took average care of my deposits, and took me into partnership in possible profits that not infrequently returned principal and interest and profit.
4. That life insurance, regarded from the standpoint of quick termination, was more profitable than any other investment that I could make.
5. That it enabled a man to give away all he wished during his lifetime by providing an estate for those left behind.

One of my first acts upon coming of age was to take out a policy, and I have been taking out others ever since.—John Wanamaker.

Another Shipment of "Royal" Folding Sulkies, To Sell at \$5.90

We are fortunate in securing another lot of these fine Baby Sulkies to sell at the above price. Since we introduced this new carriage to Victoria, a few weeks ago, we have sold over ten dozen, and no wonder, for it's really the best looking and strongest buggy we've seen at the price. All who have looked at them have expressed their admiration, and it practically sells at sight to those interested. Strongly made, light to wheel and folds up quite flat, making it easy to carry on car. Fitted with rubber tired wheels and mud-guards. Very special at \$5.90

DAVID SPENCER, LTD.

to the people in 1912, 70 per cent. voted for reunion and 30 per cent. against.

4. As a result of that vote many opposed to union withdrew their opposition, and two of them, a leading layman, J. K. McDonald, managing director of the Confederation Life, and Rev. John MacKay, D. D., principal of Westminster Hall, said that vote changed their attitude.

A pamphlet is being widely circulated in Canada and in this city, called the Presbyterian Advocate. One

would think to read this pamphlet that union is being pressed by a few hot-heads in the Presbyterian church. As a matter of fact, it is supported by an overwhelming majority of the leading laymen and ministers and professors, the late revered Principal Gavin being the first chairman of the Presbyterian union committee.

It is not my purpose to go into the arguments for union. But I think every fair-minded man will admit that it would be an immense saving in men and money. It would be a relief to ministers and congregations, which are getting tired of each other. It would be a step in the direction of our Lord's prayer that we may be one.

In closing I would just ask the Presbyterian people in Victoria to look at

our own suburbs, where we are beginning new churches, and ask would it not be better to have one good one than two which will have to struggle for a long time in these hard times? As a matter of fact, the people are uniting anyhow, and so are the children in the Sunday schools, and the best thing for the ministers is to encourage it.

I earnestly pray that the plain Presbyterian people will not listen to the bogymen of splitting the church, and ing away with the eldership and such like, but help along the union, which is in the very atmosphere and will come some day. God grant that it may come soon.

Overseas Mail.—A consignment of English mail which arrived yesterday at the local post office consisted of eight bags of letters. The mail left England on October 22, and came by way of Quebec.

Commissioner Sends Letter.—Commissioner Johnston, of the Salvation Army, has sent a letter through the War Cry to local officers, bandmen, young people's workers and soldiers in Canada West territory—announcing a special revival campaign throughout the west, and urging co-operation. The letter reads in part as follows: "Backsliders' week November 5 to 11; Farmers' and Village week, November 12 to 18; Mothers' week, November 19 to 25; Young People's week, November 26 to December 2; Outsiders' week, December 3 to 9; Enrolment Sunday, December 12."

Son's Cheque for \$50.—Santiago Carmichael, of the Royal Commission on Indian Affairs for the province of British Columbia, and who has been visiting in the city during the past week, has sent \$50 to Henry Pearce, a member of the committee which is engaged in the "Superfluities Sale" to be held shortly in aid of the Red Cross fund. The letter which accompanied the cheque was of interest, being partly as follows: "I was greatly interested in the informal chat I had with you the other evening regarding your 'superfluities' movement. As I am not a permanent resident of Victoria I am afraid I do not possess anything which would come under this heading. At the same time the movement appears to me to be a thoroughly practical one, and I wish you every success in connection with it. There must, however, be incidental expenses connected with an organization of the kind, and I trust you will accept the enclosed cheque for \$50 as my subscription towards that end."

A MAN'S SHOW WINDOW

Neatness, good clothes and good manners are a man's show window. They catch the public's first impression and arrest its attention. Clothes often make or mar an individual's future.

Every man should give careful thought to his apparel, to the wearing of the right clothes for the right occasion. And as a guide the advertising in this newspaper will frequently be of great assistance. It not only tells what to buy but is distinct style news.

Hold Monthly Meeting.—The Royal Oak Women's Institute will hold their monthly meeting on Monday in the Institute room, Royal Oak, at 3 p. m. All members are requested to be present.

Prohibition Organization Meeting.—An organization meeting for prohibition of Fairfield and Fowl Bay districts will be held in Fairfield Methodist church on Monday evening at 8 o'clock. Several representatives from the central executive will be present to direct and assist in the organization. The public is cordially invited.

Ladies' Musical Club.—The Ladies' Musical club will give their first concert of the season 1915-16 on Thursday evening, November 11, in the ballroom of the Empress hotel, when new as well as old members will be welcomed. Mrs. McDonald Fahy will be the vocal soloist for the evening, and other numbers of artistic interest will be found on the programme.

Bible Expositions.—Henry Clark, one of the Friends' ministers in this city, will give a Bible exposition to-morrow evening at the Friends' meeting house, Fern street, his subject being "The Book of Isaiah." This will be the first of a series which he hopes to give, the others following on consecutively each Sunday evening at the same place and time, until about the close of the year. The first series, given last winter, was much appreciated by many, and a cordial invitation is given to all Bible students, and any others interested.

Sale of Work.—The Ladies of St. Andrew's Presbyterian church will hold their annual sale of work on Tuesday afternoon and evening in the lecture room. The various tables will contain a great assortment of work, aprons, children's dresses, fancy caps, and aprons, woolen goods, and a great variety of articles suitable for Xmas gifts. Among the latter are several pieces of elaborate needlework and crochet-work. Home-made candy will be on sale, and special attention is being given a table for children. Tea will also be served both afternoon and evening.

Patriotic Concert.—The various Scottish societies of Victoria are holding a concert on November 26 for the benefit of the sick and wounded of the Gordons Highlanders, who left Victoria with the first draft. There are only seven of the original draft in the trenches at the present time. The following ladies and gentlemen have kindly offered their services for the concert: Mrs. A. Butler, Miss Miller, Miss Morton and Miss V. Hastings, the Misses Doble, Robert Morrison, Mr. Kelway, Mr. Saylor, Piper Cameron and Drummer Nicoll. Major Riddell, of the 50th, is the convenor of the committee.

Counterclaim Allowed.—Judgment was given on the counterclaim in the suit of Howell against Smith yesterday afternoon for \$101.55. The claim of the plaintiff was dismissed. Plaintiff was assignee of the firm of W. K. Houston & Company, and Mr. Smith was manager of the company. The assignee denied that Mr. Smith was manager, and said he worked on the firm's books for the purpose of considering an investment of money in the business. Mr. Smith drew money from time to time, and when a statement was made, he claimed there still was \$101.55 owing to him. The assignee sued Mr. Smith for money he had drawn as manager.

Superfluities Sale.—The committee in charge of the superfluities sale arrangements have decided to remove to the Belmont block where there is more room to accommodate the constantly increasing stock of supplies. Many people are asking when the auction is to be held, but no date has yet been fixed owing to the time which is necessary to classify the donations, and it may be some days yet before the announcement is made. The sale will extend over several days, and the services of a number of well-known residents as auctioneers will be secured. Any gift, no matter how unworthy in the owner's eyes, will be acceptable, the smallest article being certain to help the funds of the Red Cross.

Silver Medal Contest.—In the auditorium of Wesley church, Victoria West, a very instructive and interesting competition was held for a silver medal donated by the West End Women's Christian Temperance Union Wednesday evening. Seven young people of the district depicted the evils of intemperance and the benefits of prohibition, and in their recitations showed results of careful training and assiduous practice in the art of platform speaking. The judges considered it one of the closest contests in this work, and awarded the prize to Albert Leigh by a narrow margin. The large audience present showed their appreciation by an enthusiastic vote of thanks to the union. The contestants were the Misses C. Rogers, Ivy Evans, M. Beattie and E. Mitchell and Messrs P. McKel, G. Weismiller and A. Leigh. Mrs. Marion, Miss Morton and Mr. Thomas delighted the audience with vocal solos, Mr. Muir, the organist of the church, acting as accompanist.

Social Service Commission.—The regular monthly meeting of the Victoria Social Service commission will be held at the Y. M. C. A. on Monday next at 2.30 p. m.

Whist Drive.—Purple Star Lodge, No. 194, I. O. B. A., will hold its fortnightly whist drive on Wednesday in the Orange hall, Yates street, 8 p. m. All Orange lodge members and their friends are invited.

Centennial Epworth League.—The regular monthly consecration meeting will be held on Monday evening at 8 o'clock. Miss Henderson, of Fairfield, will give a blackboard talk, and a most profitable evening is anticipated. A hearty invitation is extended to all.

Welcome Club.—The city welcome committee for returning soldiers having appointed John Day as secretary of the committee yesterday, correspondence should be addressed to him. The club's office is located in the Pemberton block.

St. John's Choir.—An attractive programme of part-songs, glee and songs has been prepared for the concert to be given in the St. John's church schoolroom, Mason street, by the members of the choir, next Tuesday evening.

"Saved by the Blue Cross."—The moving picture film loaned to the local Blue Cross society, will be shown as an extra attraction at the Dominion theatre on Thursday, Friday and Saturday next, in aid of the Victoria hospital at Province, France.

Sanich Ratepayers.—There will be a meeting of the ratepayers of Sanich at Marigold on Monday at 8 p. m. to consider the report of the committee constituted to secure local advice in regard to the Marigold and Blackwood Road local improvement by-law.

New Thought Lectures.—Dr. T. W. Butler will lecture to-morrow morning and evening at the Progressive temple, corner Pandora and Blanshard streets. Morning subject, 11 a. m., "Attracting the Good." Evening subject, 7.30, "The Secret of Greatness." J. Larkins will render a solo.

Girls' Auxiliary, Christ Church Cathedral.—The evening branch of Christ Church Cathedral Girls' Auxiliary is holding its Christmas sale of work in the schoolroom on Thursday, November 18, at 2 p. m. As usual the stall of dressed dolls will be the special feature. There will also be fancy work, and candy for sale. Tea will be served.

Semi-Annual Examinations.—The semi-annual examinations in the Theory and Rudiments of Music, conducted by the associated board of the Royal Academy of Music and the Royal College of Music, will be held in classroom No. 30 of the new High school, on Wednesday next, Nov. 10, at 9.30 a. m., by kind permission of the school trustees. F. F. Fatt, secretary of the Association and honorary local representative, will be in charge.

St. Andrew's Cathedral.—To-morrow at St. Andrew's cathedral, Blanshard and View streets, low masses, with five minutes' sermons, will be held at 8 and 9.30 a. m., high mass and sermon at 11. In the evening there will be a sermon by Rev. Anslem Wood on "Purgatory." At Our Lady of Lourdes, Wilfords, there will be low masses at 8 a. m., military mass at 9.30, and high mass at 10.30. Evening service will be at 7.30.

A. O. F.—Court Victoria held its twelfth anniversary last Wednesday evening. An excellent programme was rendered and a most enjoyable time was spent by the large number of members with their wives, who were present. This court has sent 11 members to the trenches, one of whom has been killed in action. Brother C. J. Wilson, who left with the 50th Gordon Highlanders. Seven have recently left with the Pioneers and 14 are in uniform in Victoria and Vernon.

Preparing for Gymkhana.—Arrangements are progressing for the holding of the gymkhana in the horse show building at the agricultural grounds next Friday evening, November 12, at 8 p. m. A large attendance is expected as the proceeds are to be divided between the Blue Cross association and the Local Council of Women. Gifts of trophies for the many events would be gratefully received by the committee and could be left at Council of Women's Depot, Fort street, opposite Times office.

Views of Belgium.—Views of Belgium, taken before and during the war, will be shown in connection with a lantern lecture to be given by Rev. Robert Hughes, naval and military chaplain, Esquimalt, on Tuesday evening, November 9. The lecture will take place in the First Baptist church, corner of Yates and Quadra streets, and the admission will be twenty-five cents. The proceeds are to be entirely devoted to the W. C. T. U. men's mission. Store street, which is one of the very few places in the city where men can find food and shelter when "down and out." The work is badly in need of funds at the present time, and it is hoped that the lecture will receive generous support.

SLOW BUT SURE.—Young man do you know that an annual investment of \$100 with the "Canada Life" will make you the immediate owner of an estate of \$5,000 (smaller sums in proportion), which will gradually increase as you grow older. Unlike many other ventures this investment is non-forfeitable, inequitable, and is as safe as it is humanly possible to make it. In no other way can you provide for those dependent on you for so little outlay. Let us show you how it is done! Holstman, Forman & Co., 608 View street, General Agents: F. Lewis, Special Agent.

AT THE THEATRES

COLUMBIA THEATRE.

The hereditary trait of thieving that springs up in spite of all precautions is the theme of "The Stain," a six-reel production of the Eclectic Film Co. at the Columbia theatre, which is being shown for the last time this afternoon and evening. This is a strong play—strong in human interest and in dramatic situations, but the faithfulness of the mother wins in the end over the treachery of the husband. Beginning next Monday, "The Jugger-naut" will be presented, with Earl Williams and Anita Stewart, who were last seen here in the "Sins of the Mothers."

ROYAL VICTORIA THEATRE.

For the last time to-night at the Royal Victoria, an original photoplay by Hector Turnbull, entitled "Out of Darkness," with the well-known actress, Charlotte Walker, in the star role, will be shown. The feature abounds in thrills and in tense situations, which are handled with commendable skill. In many scenes there is a fine attention to details, showing careful, conscientious and intelligent work on the part of the director. The interest in the story never lags being full of interest from start to finish, while the cast supporting Charlotte Walker works conscientiously and with good results. "Out of Darkness" is well worth seeing.

"THE DIVORCE QUESTION."

"The Divorce Question" will be the attraction at the Princess theatre all next week with matinees on Wednesday and Saturday. The people of Victoria will have an opportunity of seeing the great problem play which has aroused so much favorable comment throughout the States for the past few years, and which has caused more discussion than any play ever produced. This play has never been seen in this part of the country, and so many requests have been made for it that Mr. Sandusky, the popular manager of the new Princess Stock Co., has at great expense secured it for his patrons. Miss Vane Alvert, who has already won the hearts of Victorians, will be seen as Maudie, the dance-hall girl, and Alf Lane, the talented leading man, will be seen as "Father Jerome." The following week this company will be seen in the great comedy hit entitled "The Blue Mouse," which has never been seen here except at two dollar prices. Seats can be reserved one week in advance.

PANTAGES THEATRE.

Following the two performances at Pantages, the last opportunities Victorians will have of seeing Bothwell Brown's spectacular musical farce, and other big items, the new Pantages bill, opening on Monday is full of music, comedy and pretty girls.

The headline act is the Prosperity Eight. The members of this organization, which is composed entirely of men dressed in white uniforms of dragons, are splendid singers and instrumentalists. They give warlike times in brass, follow these with some excellent vocal selections and close with "The American Patrol" on their instruments.

Another big offering is that of the Sorority Girls in "College Days." This is a happy combination of mirth and melody, in which a bevy of pulchritudinous maids and a good comedian provide twenty minutes of lively entertainment.

The comedy hit of the show is registered by Santos and Hayes, two girls with funny figures. One resembles a steam pipe, the other a steam roller. The simile is their own.

Stein and Hume, two men, also scored heavily with patter and music. Ollie and Johnny Vanis' do spectacular stunts on the wire.

MUNICIPAL CHAPTER

Many Matters of Business Disposed of at Recent Session; Headquarters to Be Changed.

An important decision at the meeting of the Municipal Chapter, I. O. D. E., held on Thursday in the Temple building, Mrs. Griffiths presiding. This was that the headquarters should be changed from the Temple building, where they have been established from the declaration of war, to the premises, 733 Fort Street, kindly given by A. E. Haynes, where office accommodation and space for packing and receiving field-comforts will be available.

TAKE OTHER STEPS

Welcome Club Will Endeavor to Secure More Information on Arrival of Soldiers

At the meeting of the Welcome club yesterday afternoon, it was stated that the committee expects to welcome 53 returning soldiers next week.

As indicated in the Times yesterday, the principal attention of the meeting was given to the difficulty of securing information about men routed through to Victoria, although Chief Edens, of Kamloops had done the best he could to secure the information from conductors. It was determined to apply to Senator Loughheed, chairman of the military hospitals commission, for assistance in securing the necessary information, and to Superintendent Peters, of the C. P. R., for directions to be issued to conductors.

An entertainment is to be given the boys in the Christmas season, and a committee was appointed for the purpose of making the arrangements.

Committees to arrange for automobiles, and for obtaining badges for members of the committee were struck, and some additional members appointed representing trade organizations. Votes of thanks were passed to several people who had assisted. Col. Prior, in regretting his inability to attend, conveyed the information that the men who have returned from the front to date have been found employment.

Rev. F. A. P. Chadwick reported that the finance committee of the city council had been unable to supply funds for an arch at the C. P. R. wharf.

Tuesday—Colfax Rebekah Lodge No. 1.
Wednesday—Columbia Lodge No. 2.
Thursday—Dominion Lodge No. 4.
Friday—Canton Victoria No. 2.

Colfax Sewing Circle.

Regular meeting of the circle will be
held next Monday—afternoon at 2
o'clock.

Colfax Rebekah Lodge No. 1.
The regular semi-monthly meeting of
this lodge will be held next Tuesday
evening. The members of the team
are requested to attend a practice
which will be held at 7:30 o'clock the
same evening.

P. N. G. Association.

A very interesting session of this as-
sociation was held last Tuesday after-
noon, and considerable routine business
was disposed of.

Vancouver Encampment No. 1.

The social committee of the encamp-
ment proposes holding a whist drive
during the winter months, the first ses-
sion to commence at the next meeting.
Three prizes will be awarded at the
close of the tournament. Judging from
the results of the tournament which
was held last winter, there will be a
large increase in the attendance at the
meetings. Refreshments also will be
provided, which will add considerably
to the pleasure of those attending. The
tournament will be held on the last
meeting each month, the first meeting
to be devoted to degree work. Arrange-
ments are being made to welcome the
grand patriarch when he pays his of-
ficial visit to the local encampment
next month. The semi-annual election
of officers will take place in the en-
campment on November 16. It is hoped
a large number of members will be
present.

Columbia Lodge No. 2.

Quite an interesting discussion took
place in this lodge last Wednesday
evening, the matter being laid over for
one week in order that the question
could be thought over before definite
action was taken. The first nomina-
tion of officers for the ensuing term
will take place next Wednesday even-
ing.

Dominion Lodge No. 4.

The same question which was dis-
cussed by the members of Columbia
lodge engaged the attention of the
members of No. 4 last Thursday even-
ing. The matter was finally laid over
for one week. First nomination of of-
ficers for the ensuing term will take
place in this lodge next Thursday even-
ing.

Canton Victoria No. 2.

The members of the canton are look-
ing forward with considerable pleasure
to the meeting which will be held next
Friday evening, when Major R. C.
McKay, of New Westminster, will be
present to hold annual inspection. The
officers hope all members will be pres-
ent.

SONS OF ENGLAND.

Juvenile Lodge Young England met
on Wednesday and the usual routine
business was gone through. The elec-
tion of officers will take place on the
third Wednesday in December. Lodge

Alexandra met the same evening. Sev-
eral matters of importance to the
order were brought up, and the discus-
sion was adjourned till the meeting on
November 17. All members are asked
to make a special effort to attend on
this night. Lodge Pride of the Island
will meet next Tuesday. The same
special business will be brought before
the members, and all are asked to at-
tend. After the meeting a smoker is
to be held. Members are requested to
keep in mind the dates for the election
of officers: Lodge Alexandra, Decem-
ber 1; Lodge Pride of the Island, De-
cember 14.

88TH BAND CONCERT

Interesting Programme Arranged for
To-morrow Evening at
Variety Theatre.

The band of the 88th Victoria Fus-
iliers, under the direction of Bandmas-
ter Rumsby, will give the fifth of their
weekly concerts in the Variety theatre
to-morrow night. The band has at-
tained a standard of excellence which
would be hard to equal, especially in
their rendering of the more difficult
classical selections. The concert to-
morrow evening will commence at 8:45,
when the band will be ably assisted by
the well-known local vocalist, Mrs. R.
Baird; accompanist, Musician W. Gas-
kill.

The concert given last Sunday even-
ing was the most successful so far this
season, and no doubt to-morrow will
be even a greater success, as a num-
ber of beautiful musical selections are
included in the programme arranged
by the bandmaster as follows:

March—Wellington Teike
Overture—Crown Diamonds Auber
Song—"Abide With Me" Little
Mrs. R. Baird
Peccolo Solo—The Linnet Erosett
Musician W. Hargreaves.
March Waltz—Suite From the Pa-
reant Richard III. Tree
Song—"There is a Land" Allitt
Mrs. R. Baird.
Grand Selection from the Opera
Maritana Wallace
March—The 88th Corp. Hunt

Druggist: "Here is a medicine good
for man and beast." Wife: "Give me
two bottles of it, please! I can use
one and my husband the other."

PATRICK LANDS TRIO OF YOUNGSTERS

DUBBIE KERR ACCEPTS TERMS WITH LOCALS

Harry Cameron, Star Defence Man of N. H. A., Will Play With Victoria; Kennedy's Claims Are False

Having nine players already in line, Lester Patrick, manager of the local ice hockey team, is still scouring the country for material, so as to give Victoria a winning combination this winter. Four of last season's members will return, while a number of prairie youngsters are coming for a tryout. Victoria has practically signed up a team which could take the ice and make a strong bid for the championship, but Lester is not yet satisfied with the outlook, and will not be thoroughly satisfied until he has got together a team which he is confident will lift the championship.

Yesterday afternoon Mike O'Leary, the sensational Maritime Province league hockey star, arrived in the city, and affixed his name to a contract. He is built on the same basis as Skinner, Poulin, possesses plenty of speed, and was one of the leading scorers in his organization last winter. He is just out of his teens, and Lester looks for him to be the sensation of this circuit.

Fred McCallough, an Ottawa boy, has also come to terms with the local magnate. McCallough is a goaltender, and has just turned his twentieth birthday. He has been playing hockey on the prairie, and Patrick was exceptionally lucky to land him, as several of the N. H. A. clubs had made him splendid inducements to go east. He declined, however, to accept them.

Jimmy Reilly, a star forward who played with the Calgary Vics last winter, is also coming to the coast for a tryout with Victoria. Reilly is only a youngster, but possesses plenty of speed and is a good stickhandler.

All the reports sent out by the east to the effect that Dubbie Kerr was anxious to return to the N. H. A. were false. To-day Manager Patrick received word from Kerr that he was coming back to the coast, and that he was thoroughly satisfied with the terms offered him. It is not improbable that the N. H. A. was after the star Victoria forward, but he would far rather play in this circuit than in the east.

Harry Cameron, the star defence player whom the Patricks succeeded in bringing to the coast from the Toronto club, will be berthed on the Victoria defence. Cameron is reputed to be the greatest defence player in the N. H. A., and should be a great favorite out here. Cameron was one of the pair which formed the great defence for Toronto when Victoria went east two seasons ago in an effort to lift the Stanley cup.

and every member of the Victoria team claimed him to be next to invincible in defence.

To date Manager Patrick has nine players on his roster. They are as follows: Goal, McCullough; defence, Genge, Cameron, Lester Patrick, Arwards, Poulin, McDonald, O'Leary, Reilly and Kerr.

Seattle Looks Strong. Seattle appears to have lined up a band of puck-chasers who will be contenders for the P. C. H. A. championship. To date Pete Muldoon has the following men to make up his team: Bobby Rowe (last year with Victoria), forward; Barney Stanley, forward; Ole Haas, of Houghton, Mich.; Jack Walker, from Toronto, forward; Cully Wilson, from Toronto, forward; Carpenter, another Toronto player, defence; Holmes, of Toronto, goal tender.

Kennedy's Claims. George Kennedy, the Canadian manager, allowed it to become known today that he is after every coast player who would be at all likely to accept a contract with an eastern club. He has offered contracts, totalling \$10,000, besides "Skinner" Poulin, formerly of the Canadians, and Rochon, a big defence player on one of the Pacific clubs, he has made offers to Frank Nibblers, Eddie Oatman and McDonald.

"Poulin and Rochon, I know, are anxious to come back east," Kennedy said. "Judging by the offers which have been made my players," he continued, "the salaries which are being paid at the coast are much lower than those in the east. The contracts which I have offered these players aggregate \$10,000."

Further Claims. In regard to the story that George Kennedy had wired every Pacific coast hockey player an offer, to come it might be said the eastern sportswriters using the needle too much. Neither Seaborn nor St. Griffo has received an offer from the east, and it is also understood that Fred Taylor did not get anything in the way of word from the eastern manager.

Detroit Active. Detroit, Nov. 6.—Hockey activity in Detroit started a few days ago when the Detroit Hockey club organized for the season.

All the members of last season's five septette are anxious to get started, including Skelly, Johnson, Williams, Reid, Shaw, Emery, Hammelef, Pelletier, Dunston and Black. There also are several stellar performers from Canada who are living in Detroit at the present time, who are expected to make strong bids for positions on the team, including Skelly, a brother of Jack Prospects never brighter for a winning combination here than this winter.

COME TO TERMS

DUBBIE KERR

Star left wing player, who has accepted terms offered him by Lester Patrick, and will return west. Kerr is regarded as one of the best forwards in hockey.

MAY MANAGE ANGELS.

Chicago, Nov. 6.—James J. Callahan, former manager of the Chicago Americans, has been appointed manager of the Los Angeles club of the Pacific Coast league, according to a story printed here, which credits John T. Powers, owner of the Los Angeles team, with having made the announcement. Callahan could not be reached to-day.

San Francisco, Nov. 6.—President A. T. Baum of the Pacific Coast Baseball league, expressed surprise when informed of the reported appointment of James J. Callahan to manage the Los Angeles team. "It's all news to me," he said.

RING CHAMPIONS ARE READY FOR CAMPAIGNS

Three Titleholders Are in Grave Danger of Being Dethroned

Boxing champions of all divisions, from the bantamweight to the heavyweight classes, are making preparations to defend their laurels. Titleholders who have done very little fighting for many months past, are now being flooded with challenges, and the public demand that they defend their titles. Three of the present champions are in grave danger of being dethroned.

On their past performances they have been slipping, and fight fans anticipate their downfall. In the heavyweight division Jess Willard should retain his honors for some years, the only man whom is capable of giving him an interesting battle being Frank Moran. Other challengers like Fred Fulton, Jack Dillon, and Coffey, would be easy picking for the champ. Les D'Arcy, the sensational Australian middleweight, appears to be the only man in sight who can fill in the gap left vacant by the tragic death of Stanley Ketchel, more than three years ago. D'Arcy has beaten everything in the middleweight division thus far, having whipped McGoorty, Jeff Smith and Jimmy Clabby. The only obstacle between him and the middleweight throne is Mike Gibbons, and those who have seen the Australian figure the St. Paul wizard will not provide a stumbling block for the hard-hitting D'Arcy.

Fredie Welsh has six good boys anxious to battle him for the 133-pound supremacy. The most prominent of these is Kid Lewis, the British boxer, who has trimmed Mandot, White, Saylor, Britton, and others. Welsh should certainly give him a chance at the title. Johnny Dundee probably ranks next, while Matt Wells is also anxious to do battle with Fredie. Promoters are now making an effort to bring Welsh and Lewis together.

The welterweight class now boasts of three first class mitt artists, namely, Packey McFarland, Willie Ritchie and Soldier Bartfield. All these boys are top-notchers, and New Orleans promoters are endeavoring to have them settle their little arguments before their sporting clubs.

That the foundation of the throne upon which the featherweight king, Johnny Kilbane, sits is crumbling, is indicated by the artistic boxing the Cleveland titleholder suffered at the hands of Ritchie Mitchell, a Milwaukee youth. Kilbane did not show his old-time speed, and is apt to lose his title any day. He has been wired a splendid inducement to fight George Chaney, the knockout king, early next month.

Kid Williams appears to be fading, and fading fast. His last two engagements resulted in the champion getting the worst of it. Johnny Ertle, fought Williams before a Brooklyn Athletics club crowd, and the latter was disqualified for fouling his opponent in the fifth round. Ertle now claims the title, although the boxing commission refuses to accept him as champion. His second scrap was with Pat Driscoll, and while the contest was a decision 8-round affair, the Kid was outpointed, twice settling to the floor from hard smashes on the jaw. He managed to weather through. On Nov. 29 the Kid will start out on a campaign to defend his championship.

His opponent on that date will be Pete Herman, a New Orleans bantam, over twenty rounds.

Lewis Growing. Kid Lewis, who has trimmed all the American lightweights, is growing rapidly. When he invaded the States he weighed but 126 or 128 pounds, and was a contender for the title now held by Kilbane. He found, however, that he could not make the weight, and is now scrapping lightweights.

The Kid now finds it hard to make the lightweight limit, and through his manager, Jimmy Johnston, has challenged Mike Gibbons, Packey McFarland, and Willie Ritchie. Lewis will agree to meet Gibbons at catch weights.

An organization known as the Managers' association has been formed by promoters of fight clubs here who are interested in the health and prosperity of boxing. James Buckley is chairman. The Sharkey A. C. Military A. C., Fairmont A. C., Clermont A. C., Vanderbilt A. C., New Polo A. A. and Long Acre A. A. are represented. The purpose of the organization is to assist the State Athletic commission in every possible manner toward improvement of the ring sport in New York.

San Francisco, Nov. 6.—Miss Molla Bjurstedt and Clarence Griffin, who won the preliminary round of the mixed doubles yesterday in the Coast tennis championships, played together for the first time and put up a well balanced game. They defeated Carmen Tarilton and H. V. D. Johns, 6-2, 8-6.

They won the first set easily, but the losers put up a hard tussle in the second.

Miss Bjurstedt and Griffin had the score 5-3 in the second set, their opponents made a stand and pulled the score to five all, lost the next game and then made it six all.

Results: Women's doubles—First round: Miss Molla Bjurstedt and Mrs. Wightman defeated Edna Peters and Ursula Dietrich, 6-0, 6-2.

Mixed doubles—Preliminary round: Molla Bjurstedt and Clarence Griffin defeated Carmen Tarilton and H. V. D. Johns, 6-2, 8-6.

Men's doubles—Specials: H. D. V. Johns and Poland Roberts defeated W. A. Marcus and Leon Strauss, 8-6, 6-2.

San Francisco, Nov. 6.—Mirthful, Allie Lissard and Mack Fitzsimmons all tossed their fields yesterday at the Panama-Pacific exposition harness meet winning in straight heats.

The big race of the day was the 255 pace won by Mack Fitzsimmons. The fastest time was 2:07. Results: First race, 212 class-trot, purse \$2,000: Mirthful (Murphy) 1 1 1 1 John Mack (Bryan) 2 2 2 2 Future Tramp (Stall) 3 3 3 3

SUPPLIES FOR QUADRA DISCUSSED IN COURT

Chief Stewart Not Responsible for Debt Incurred by His Predecessor

Before Judge Lampman in the county court this morning the Quadra Grocers company sued Frederick Kelway, chief steward of the steamer Quadra, claiming \$300 balance of an account for the Quadra for steward's department stores that had been incurred before Mr. Kelway was appointed. The plaintiff claimed that when Mr. Kelway was appointed, he agreed to pay this indebtedness. Judge Lampman dismissed the action.

The plaintiff company called Harry Amphlett, formerly employed there, and now secretary of the Retail Merchants' association. He said that the former chief steward and caterer, a man named Pottinger, who now is serving as a soldier, had not behind about \$300 in his account and a change in the chief stewardship became necessary. There had been conversations about the account with Capt. Robertson, of the marine and fisheries department, and Kelway had been appointed. The plaintiff alleged that Kelway had agreed to take over about \$500 worth of stores that Pottinger had on hand and to assume the debt for stores "as it stood on the books of the company."

"Mr. Kelway, in his defence, denied this, and said his agreement was that he would take over the stores, and that if Pottinger would stay on the ship and help, he would try to reduce Pottinger's indebtedness. Pottinger had quit the ship after one trip, and when witness got to the city again he had the first order, and had then dealt elsewhere. He said as Pottinger did not stay and help him he declined to have anything to do with the debt.

His evidence was supported by Pottinger. Capt. Robertson remembered a conversation in which Kelway had agreed to take over the stores. He had not heard any promise by Kelway to release Pottinger from responsibility in regard to the debt.

"I've brought you a pet monkey to amuse you, darling," she said, "oh, how kind of you! Now I shan't miss you whilst you're away."

CROW'S NEST PASS COLLIERIES ACTIVE

Well-Known Authority on Coal Mining is Visitor in City

"The demand for coal from the Crow's Nest Pass mines has been stimulated by the closing of the Panama Canal, and the commercial demands in the district by 50 per cent. are better than a year ago," said President Elias Rogers, of the Crow's Nest Pass Co., head of one of the leading firms of coal merchants in Toronto. Mr. Rogers is in Victoria with Mrs. Rogers, staying at the Empress hotel for a day or two on a combined business and pleasure trip.

Mr. Rogers came west through the Crow's Nest Pass district, and finds that the demand from railways for freight business is greater than was the case a short time ago, as well as there being a better market for the collieries in the Kootenay district. He expressed considerable interest in the Pacific Coast Coal-mines, suit, now before the courts.

While not denying that he would transact some business here, Mr. Rogers stated that the main object of his visit was to make an inspection of western interests. He finds trade conditions in B. C. considerably improved since he was in the west last year.

Mr. and Mrs. Rogers will leave again to-morrow.

DESCRIBES AIR-RAID ON OTTERPOOL CAMP

Ottawa Soldier Saw One of Bombs Fall From Zeppelin

Ottawa, Nov. 6.—A vivid description of the Zeppelin raid on Otterpool camp, near Shorncliffe, Kent, England, is contained in a letter from an Ottawa boy now with the Canadians in England which was received in Ottawa recently by the writer's father.

Thirteen soldiers were killed, the letter says, which bears out the official statement of the casualties of the raid, although one of the 14 wounded since has been reported dead. In addition there were thirty-eight horses lost, for one of the dead horses dropped on the horse lines. The letter says:

"Wednesday night we had an air raid on our camp, and on the bridge line at 10.30 a.m. a Zeppelin blew the call 'Lights Out' and repeated it. We were slow in putting them out because the regular time is 10.15. Eventually all the lights in the huts were out but the lights in the bath-house and kitchen still were burning when there was a flash, and after an interval, a rolling bomb. No more orders were needed. Every light went out and the Zeppelin came in. It counted the seconds and said the bomb had landed in or near—"

"In quick succession there were two more flashes and crashes, and then silence—silence one could feel, silence that wrought up the nerves and made one's heart jump and flutter. I stood looking with one of our Imperial army veterans, and though my nerve saved me outwardly, inwardly I could not help thinking of my happy home, and wondering whether this raid would mean the end.

Load Noise.
"Only a few seconds elapsed, then there was a blinding flash and a frightful roar sounded just behind our stables, 200 yards away. In quick succession four more followed. Then we could hear the hum of the engines and all that was left to see were five pillars of black smoke standing ghost-like in the yellow fog.

"I stood a bare 120 yards from where the last bomb fell. I heard it sing as it fell through the air and saw it land and explode. The bomb fell in a straight line just 100 yards from the edge of the camp in a vacant field and did us no damage. Not even the fence was injured. Alas, the other camp did not escape. As quickly as possible I got a few lads together and started for to see if we could give any assistance. It was awful. One bomb had struck the guard tent and one had fallen in the horse lines. Thirteen men had been killed almost instantly and 12 wounded. Thirty-eight horses either had been killed outright or injured so they had to be shot.

"I will not attempt to describe the scene; it was terrible. I knew one of the lads who was killed. They were literally blown into fragments."

READS A LECTURE TO PRESIDENT WILSON

Berlin, Nov. 6.—The Morgen Post attacks President Wilson sharply to-day for his remarks in his speech in New York on Thursday evening concerning persons in the United States who are partisans of other causes than that of the United States and have forgotten that their chief allegiance is to the American government. "The Morgen Post says the elections of Tuesday 'brought a heavy moral defeat' to the president and that his speech was in retaliation for 'this German-American punishment,' and obviously was directed against German-Americans.

WOMEN ARE DIGGING TUNNEL IN BERLIN

London, Nov. 6.—Women are being employed now on public works in Berlin, according to the Copenhagen correspondent of the Morning Post. He has received a telegram from Berlin which says women are at work excavating the Friedrichstrasse tunnel, which is to form part of the underground railway system of Berlin.

"The utilization of women for this purpose is so successful," the dispatch says, "that it is intended to employ them on other big undertakings."

DRUNKENNESS CAN BE CURED

It is a disease—not a habit
"Some years ago I was a heavy drinker. Demon drink had me in his grip. Friends, business, family were slipping from me. Ruin stared me in the face.

"But one friend remained, a physician. Through his efforts I WAS SAVED.

"This man had made a scientific study of drunkenness as a disease. He had found a cure for it."

It was a case like this that made me realize how many others were in need of aid, and determined me, if possible, to offer Samaria Prescription to the world.

The treatment is absolutely different from others. It can be given without the patient's knowledge if desired. Thousands of wives, mothers, daughters and sisters have saved their menfolk from the curse of alcohol through it.

IT CURES

In a few days, all craving for alcohol is gone, and the patient is restored to health, happiness, family and friends, and the respect of all.

I am ready to tell you about it, absolutely FREE—SEND NO MONEY.
Just send me your name and address, saying: "Please tell me how I can cure drunkenness. That is all you need to say. I will understand and will write you at once telling you all about my wonderful cure for DRUNKENNESS, and will also send you a TRIAL PACKAGE, which will show you how the treatment can be given without the patient's knowledge. All this I will send you ABSOLUTELY FREE in a plain, sealed package, at once.

Do not delay; send me a postcard, or write me a letter to-day. Do not be afraid to send in your name. I always treat correspondence as sacredly confidential.

FINANCIAL STATEMENT ISSUED AT OTTAWA

Ottawa, Nov. 6.—The detailed financial statement for the month ended October 31 and for the seven months of the fiscal year was issued last night. The revenue for the month was \$2,389,019, as against \$1,440,585 for October last year. The customs revenue for the month shows an increase of more than 25 per cent, the total being \$7,847,784 as against \$5,321,508 last year. The total revenue for the seven months was \$57,082,848, against \$50,572,466 for the same period last year.

STATED STEVENS HAS ARRANGED SETTLEMENT

Vancouver, Nov. 6.—The charges of misfeasance in connection with the Dominion Trust will come up Monday and arrangements are being made to-day for the transport of five or six tons of ledgers from Dominion Trust headquarters to the supreme court.

SUGGESTION HAS NOT BEEN RECEIVED YET

Ottawa, Nov. 6.—Sir Richard McBride's suggestion that the name of Mount Robson be changed to Mount Cavell has not been considered yet by the geographical board. As a matter of fact the suggestion has not been received by the board as yet, but if it is, it will be considered at the next regular meeting, to be held on the first Tuesday in December.

GREEK ARMY OFFICERS IN FAVOR OF ALLIES

Geneva, Nov. 6.—Telegraphic advices received here to-day say that a faction of army officers recently attempted a coup which would have forced Greece to enter the war on the side of the allies. The plan was discovered and frustrated. There have been many arrests made in connection with the plot.

INFERNAL MACHINE ON RUDDER-POST, OF TEXAS

New York, Nov. 6.—Fay, who stated he was a lieutenant in the German army, and Scholz, his brother-in-law, were sentenced closely yesterday by a sergeant of marines from the Brooklyn navy yard. He was on duty, it is said, when an infernal machine was attached to the rudder-post of the battleship Texas some time ago.

SUPERFLUITIES SALE WILL BE BIG SUCCESS

Mr. Pearce Announces That Response to Request for Goods Has Been Large

The superfluties sale on behalf of the Red Cross funds has surpassed expectations. Four thousand circulars relating to the proposal were sent out under direction of the committee, and the response has been far greater than anticipated. A large quantity of goods has been donated. Henry Pearce, who originated the plan, writes the following letter in regard to what has been accomplished:

"I should like the opportunity of thanking those ladies who so nobly assisted the superfluties sales committee in sending out over 4,000 circulars this week. I should also like the opportunity of stating that practically all of the work in connection with these sales has been done gratuitously. In most cases the printing has been done for the large cost of material. The money for the postage stamps was advanced by a gentleman on the understanding that the amount incurred would not be refunded by the Red Cross society unless the superfluties sale was an absolutely assured success. There is no question about the success for within two days of the posting of these, it has been extraordinary the response received to our request for gifts. Valuable pieces of jewelry, motor cars, horses, real estate, furs, clocks, pictures, china, musical instruments, thousands of dollars worth of goods have already been offered, ranging in value from \$1 to hundreds of dollars.

Arrangements are nearly completed for collecting these several gifts, and the superfluties committee would very much appreciate any offers from ladies or gentlemen who drive their own motor cars to assist in collecting night or articles.

The Red Cross society has not arranged to find one dollar for preliminary expenses. A gentleman from Montreal, now in town, was so struck with the idea of the superfluties sale, that he stopped me on the street this morning and gave me \$10 as a contribution towards expenses of this kind.

One or two storemen will be required, for whom a proper wage will be required, but we shall only employ returned soldiers who are in need of work, or some one who is unable, physically or otherwise, to go to the front.

RUSSIAN CONSULAR POWERS
May Receive Assets of Dead Compatriots for Transmission to Russia.

Some question having arisen as to the transmission of assets of Russians dying in Canada to any relatives in Russia who may be entitled to them, correspondence has taken place through the consular and foreign offices on the subject. There is now published in the Canada Gazette a note from the Russian ministry of foreign affairs, stating that Russian consuls in Canada are considered, in matters relating to the estates of their compatriots, as attorneys for absent estates. The note continues:

"Russian consuls in Canada are therefore fully empowered to receive estates left by Russian subjects in Canada, and particularly they are authorized to receive from the Canadian authorities and from private persons and judicial officers all property, movable, title deeds, securities, money, debts and papers which compose the estates to which Russian subjects residing in Canada are entitled. The consuls have moreover the right to take possession of wills which may be found amongst the documents left by Russian subjects dying in Canada. The Imperial ministry feels bound to add that the foregoing applies only to consuls de carrière."

ANOTHER VICTORIAN QUALIFIES AS FLYER

Gerald Woodward Wins His Aero Certificate at Dayton Reporting at Ottawa

Another Victoria boy has won his aero certificate, and is on his way to Ottawa to report. Gerald Woodward yesterday sent word to his parents, Mr. and Mrs. A. W. Woodward, of this city, that he had been successful at the Wright school, Dayton, O. It will be ten days or two weeks before he leaves Canada for England, where his aerial training will be completed.

Woodward left here with the intention of training at the Curtiss school in Toronto, but owing to the tempestuous weather in that city, he packed his kit and went to Dayton. He arrived there shortly after Nov. 1st, and was met by Percy Beasley and Curtis Watson.

Word was received yesterday from Montreal that Watson and Ken Saunders, who were to have left there

GERALD WOODWARD

to-day for England, had their orders changed, and will not depart until next Tuesday.

The Wright school is now putting through its last classes before closing down for the winter. Joe Gordon started his course last Monday, and Herbert McKenzie, who left here early this week, will make his first flight next week. The Toronto school closed down a couple of weeks ago. J. D. McCurdy, manager of the school, intended to establish his winter school at Bermuda, but was unable to find sufficient ground for flying. The Curtiss people once entertained an idea of coming to Vancouver Island for training, but they will not receive consideration unless the Victoria Aero club fails to establish a school.

BOTH KNOWN IN DUNCAN

Sgt. Crockett and Pte. Roberts in Hospital: Former One of Few Survivors of First Victoria Contingent.

Suffering from nervous prostration, Sgt. Charles Crockett, of the 16th battalion, is in hospital in England, according to a report received here by friends. Sgt. Crockett enlisted with the 50th Gordon Highlanders two months before the outbreak of the war, and went from Victoria in August, 1914, with the first contingent. He is well-known at Duncan, where he was a member of the volunteer fire brigade for some time. He was at one time attached to the Royal Marine Light Infantry. With his comrades he went through much strenuous fighting with the 16th battalion, and is one of the small handful of men left of the original 350 who went from this city within a few weeks after the declaration of war.

Pte. G. W. Roberts, of the 28th battalion, who went from Victoria with the 18th battalion early in the present summer, and was sent among the reinforcements to the older unit, is in Cambridge hospital, England, recovering from injuries sustained through

the explosion of a mine near him in the trenches. A flying sandbag hit him in the side, breaking two ribs and crushing his chest. Several of his companions were killed. Pte. Roberts is also well-known in Duncan. The news of his whereabouts and condition was received by Mrs. Morley, of Tzouhalem, who has had a letter from the patient himself.

COMPARES GERMANY

WITH OLD ASSYRIA

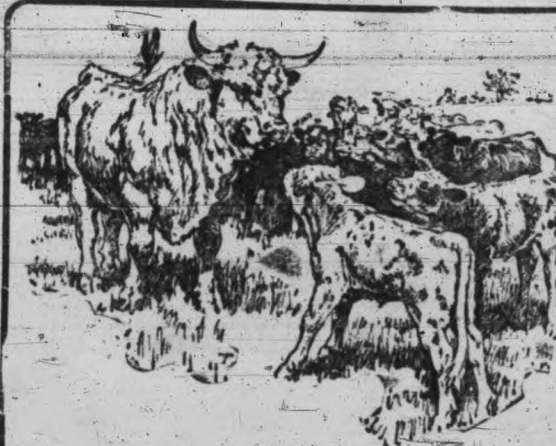

Brute Force and Militarism the Ideals of Both Peoples

"The Doom of Assyria and Edom" was the subject of the lecture delivered last evening by Professor Odium, of Vancouver, before a big audience which crowded both pit and gallery of the old Victoria theatre. The lecture was given under the auspices of the Imperial British Israel association, under the presidency of E. Henderson, while Colonel Eardley-Wilmot, of Shawinigan, was chairman for the evening.

As the lecturer's subject was announced as having a direct bearing on the fate of Germany and her allies, great interest was taken in the address by people of all classes and creeds. Professor Odium's reputation as a man of unusual perspicacity and intellectual attainments giving additional weight to the statements made.

The chairman introduced the speaker of the evening after a brief introductory passage, in which he referred to the generally-accepted criticism of Germany's ethics, and the doom which was certain to fall upon any nation which so ruthlessly set aside the higher ideal for the sake of expediency and material gain.

With his well-known grasp on the historic side of the matter Professor Odium traced for his audience the connection between the Germans and the Assyrians, which seemed to prove the direct descent of the former from the older race which had lifted up brute force and militarism for the worship of its people rather than the higher ideal of protection of the weak. The war-loving nation of the Bible had its counterpart in the Germany of to-day, with its ideal that "might makes right." The principle was taught in

the Prussian colleges and universities, whether solely devoted to military training or not. Germany's parliament advocated it and put it into force. Scientists centred all their energies to the perfecting of its instruments. Ever will was set at naught as a doctrine, and the nation was bound down individually and collectively to the worship of force.

How God had broken the Assyrian hold on Sennacherib, when they threatened the city of the Judeans was related by the lecturer, who compared the battle of those ancient days to the fight of a year ago between the Germans and British at Mons, when the Hun had brutally set aside all idea of national honor and had invaded little Belgium. But mere strength of arms had not won the day. The Germans had been beaten by something which it was beyond these worshippers of materialism to understand. England, like the city of Judah, was invulnerable to such a foe, and the herculean efforts of Germany to make her artillery effective across the English Channel had failed. Prussia was aiming too at Palestine. But as the Scripture had foretold the destruction of the Assyrians on the rocks of Israel, so would Germany be crushed in the Holy Land.

Whether she broke her way through Serbia or not was immaterial in the face of such prophecies, for her fate was already sealed. Armageddon was at hand.

The band of the 88th Fusiliers, through the kindness of Lt.-Col. Roux Cullen and officers of the regiment, was present and played selections while the audience was assembling, as well as later in the evening.

"You don't come in as frequently as you used to, Mr. Jiggs," remarked the barber. "No," retorted his victim. "It seems that it takes my face longer to heal nowadays."

SHARP CONFLICT OF OPINION ON AWARD

City and Saanich View High School Judgment From Op- posite Points of View

The decision of the council of public instruction with regard to the High school tuition fees overshadows all other questions at the city hall and at Royal Oak. It is important not only as establishing a principle on a specific object, but as the focus of the strained relations between the city council and the Saanich council which have been gradually increasing for some months.

At the city hall the chairman of the finance committee voiced the sentiment of the aldermen in very firm language. Alderman McNeill says it was a "small and dishonest" act of Saanich to refuse to pay its obligations. "What right," he asks, "has the council of public instruction to lay down a date upon which the payment of fees shall commence? Saanich has known for months that it was evading a responsibility in refusing to pay, and that the only reason upon which it provided high school facilities for its pupils. The result is

that the city will lose seven and a half months' allowance to which it is entitled. With regard to the question of the letter, it is no part of the duty of the education department to say that non-resident owners of property shall have the same right of admission of their children to the schools as resident owners. We have at least established this principle, that Saanich has to pay in future, and to meet its just obligations. We have also shown that a high school and graded school are one in the interpretation of the act."

"What will you do with the cases of Oak Bay and Esquimalt now, in view of the announcement at the conference of September 18?" he was asked.

"The matter will be taken up immediately by the civic finance committee," was the reply, "and by the city council, but it must be said that we shall not charge the two municipalities more than we can collect from Saanich under the judgment."

The feeling of the council of Saanich was expressed in emphatic language to-day. He said: "We have won all we asked. First, we have secured the principle that we should not pay for a debt of which we had no notice. You said that the council of Saanich that I, as reeve, would not sign away a single dollar for obligations which we did not incur. The council of public instruction has found that the city had no right to collect the money prior to notice from the city board to the Saanich board. Secondly, the award has established that non-resident owners can send their children to a school outside the district, provided they are taxpayers, and we shall carefully investigate to see how many of the 40 cases affected should actually be paid for. In the last place we have confirmed the contention that the city council had no right to charge us up for capital investment on the high school building and grounds. I shall not pay the amount of the award without a resolution from the Saanich school board, as the total must be added to the school estimates."

Reeve McGregor spoke strongly against the spirit which he said prevailed in the city hall to-day. He objected to the allegation of sharp practice with regard to waterworks, and of repudiation with regard to the sewerage agreement, and said the city officials had used this school question as a weapon to emphasize differences.

"We contributed last year," he said, "to the cost of the market, and so far as sewerage is concerned, we could not pass the necessary by-law at this time, therefore a money contribution is impossible. Saanich has not refused, and it cannot be shown that it has, refused to pay its debt."

School board officials are anxious to see how the city will fare in regard to the residence clause of the award, because while the superintendent of education took a very definite stand on the admission of children to the graded schools, eventually the city board established the principle of exclusion.

The city case with regard to the allegation of bad faith on the part of Saanich is based largely on the ground that the Saanich council was to have held a meeting with its school board, and submitted to the city a proposal as to what terms would be acceptable. Such a meeting was held, it is true, but instead of deciding on an alternative proposal, the appeal was taken direct to the council of public instruction, with the result given in the award published yesterday.

LOCAL MAJOR GIVES INTERVIEW IN LONDON

Is Suffering From Shock Through Bursting Nearby of Several "Coal Boxes"

An extremely interesting interview was given in London two weeks ago by Major A. Bruce Powley, of Victoria, who left here early in the war and was sent with reinforcements to the 7th Battalion. Talce he has been wounded, and on this second occasion is also suffering from shock. He is now at Miss Pollock's nursing home, Weymouth street, London.

The major was present when the preparation for the big offensive was made by the concentrated cannonade of hundreds of big guns on the German line, and it was through the bursting close by of several German "Jack Johnsons" that he sustained the shock which put him temporarily out of action.

Used Many Guns.

"The Germans must have opened up in front of us with every piece of artillery they possessed," said Major Powley to his interviewer. "They raked our front line and our supports with high explosives which our men call 'coal boxes'—which burst about one hundred feet in the air, using all kinds of heavy stuff, to which our supporting artillery replied no less vigorously. Two of the German high explosive shells landed within fifteen feet of me, and the heavy concussion shook me up pretty well."

It was not, however, until five days afterwards—during which time he "stood by the job"—that Major Powley was sent to hospital. He had been in command of a double company of the 7th over a certain advanced section, which they had held for months. During the earlier part of the time the depth of some of the communication trenches made it advisable for those using them to stoop considerably as they went along, as the Germans, after "putting" at them on starting, followed up with shots, judged according to

MAJOR A. BRUCE POWLEY.

their likely rate of progress, which would "ping, ping, ping," as they struck the sand bags, and missed the opening in the hope of hitting.

"In a way I've always felt responsible for Captain S. D. Gardner's getting his severe wound at Festubert," explained Major Powley. "That day I passed on my account. You see, I had taken a relief party from the reserve line to the trenches around 'K 5,' and had to go back along an open road which was literally dotted with bursting shells. Many officers had been killed and wounded, and I was wounded and my arm was beginning to bother me. I reported to Colonel Gardner that an officer ought to be sent, as there was then no senior officer left with the company. The troops sent down, Captain Gardner, who was sitting down by a haystack, immediately said, 'I'll go and see what is going on.' He hadn't been gone two minutes before he was hit. Later, we were together in the same hospital."

Might Have Passed for Shot.

Major Powley told of an instance of a man being shot in a way which was very peculiar. "If the man had posed for the shot, with everything prepared for its complete carrying out, it could not have been accomplished more exactly. It was done in the way."

A soldier of the 7th Battalion was shot through the neck, left wrist and right hand, and all with the same bullet. The man was lying on top of a dug-out in a not very deep trench, which was partially and unpleasantly commanded by the German lines, so much so that, with accurate shooting, they could send in leaden messengers with deadly effect. Lying on his back, the man in question was apparently relaxed his left hand to see the time by his wristwatch. As he placed his left hand over his right the bullet came, tore a hole through his throat, and then inflicted the other two wounds on the wrist and other hand.

ENLIST!

Remember the Lusitania.
That innocent, harmless, slain.
The Arabic and Palatia.
The pirates who mocked their pain—
And enlist!

Think of your comrades falling.
Think of the fate of Louvain;
The helpless, homeless, calling.
Let them not call you in vain—
But enlist!

Remember the hundreds murdered
By the Zeppelin's fiendish crew.
And the homes in Belgium plundered.
Of Poland and Serbia, too.
Then enlist!

Think of the Scarborough raiders.
The women and children they slew.
The acts of German invaders.
And martyred Miss Cavell so true—
And enlist!

PREMIER TO RETIRE; BOWSER TO SUCCEED

Sir Richard Expected to Leave for London in Few Days; Election Rumors

The belief has been growing for some time that there will not be a provincial general election until after another session of the legislature, but on the other hand it has within the last few days begun to be considered as a probability that an appeal is not so far off, that when the appeal is made it will be by a Bowser administration, and that with a practically new cabinet it is hoped to retain the allegiance of that great body of honest Conservative electors who have become disgusted with their own party.

An announcement which will be the first step towards the reconstruction of the administration may be expected within a very short time. Sir Richard McBride is on the eve of another trip from home, primarily to Ottawa, but eventually to London. Following this it will be no surprise to learn that the premier is taking the office of agent-general for the province in the metropolitan on the superannuation of Hon. J. H. Turner, who has filled that position since 1901. He will probably start for the capital the course of the next ten days.

Coinciding with the announcement of his new office will come that of the re-formation of the government with Hon. W. J. Bowser as premier. It is practically certain that it will not contain the present provincial secretary and minister of education, Hon. H. E. Young, nor the minister of public works and minister of railways, Hon. Thomas Taylor. This would leave four vacancies in the cabinet, as the portfolio of finance and agriculture was never filled after the resignation of Price Ellison, member for Okanagan, and is being administered by Mr. Bowser.

The only new cabinet minister who is certain of a seat in the councils of the lieutenant-governor is A. C. Flumerfelt, who, in all probability will be made minister of finance and agriculture on account of his business experience and knowledge of finance. As the premier's retirement would leave a vacancy in the Victoria representation, Mr. Flumerfelt would be the candidate for that seat.

C. E. Tisdall, one of the Vancouver members, is looked upon as a likelihood for the cabinet for that portion of the province. He is another business man in whose ability and standing the new administration would feel it had something to commend it to the sober sense of the electors of that city. For the other two portfolios, if the premier-to-be cared to fill them, he would find about forty aspirants. There is, too, the presidency of the council, an honorary post, which has not been filled since Hon. A. E. McPhips was elevated to the bench two years ago.

The formation of a new government would make a general election necessary in the present condition of things political here. The ministers being brought in would have to go to the people for election or re-election, and it is certain that no move in British Columbia to-day dare risk a bye-election in advance of a general election. It would be very inconvenient to bring on two or three bye-elections and have a defeat for one or more of his untired colleagues. It is a possibility, therefore, that he might postpone the changes until after a session, taking on the portfolio of mines and the duties of president of the council, in addition to his other official duties.

no one questions the diligence and devotion to work of Mr. Bowser and at the close of the session make his appointments and appeal to the country on a cry that here is a government of business men which ought to be given a chance to show what it can do.

In the event that he would not continue on the course with present colleagues after he got into the saddle, he would have to bring on the elections at once and before a session of the house, although it is a bad time of year for an appeal. Among many Conservatives there is an idea that an election is imminent, and there undoubtedly has been a good deal of activity of late in quarters not unrelated to the machine. The longer the delay the worse the result is likely to be for the government, and that has long been recognized by ministers, by none more than the premier, who does not desire to end his career within the province by being defeated. That he would not again be a candidate for a seat in the house has been looked upon as one of the certainties among the uncertainties of politics, and for the reason mentioned.

A Real Flesh Builder For Thin People

Thin men and women—that big, hearty, filling dinner you ate last night. What became of all the fat-producing nourishment it contained? You haven't gained weight on it. That food passed from your body like 'unburned coal' through an open grate. The material was there, but your body doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world over. Your nutritive organs, your functions of assimilation, are probably sadly out of gear and need reconstruction. Cut out the 'toxic' foods and funny 'sawdust' diets. Cut out everything but the meals you are eating and eat with every one of those small Sargol tablets. In two weeks note the difference. Let the scales be the judge. Five to eight good solid pounds of healthy 'starch' fat may be the result. Sargol aims to charge new, stagnant blood with millions of fresh new red blood corpuscles—to give the blood the carrying power to deliver every ounce of fat-making material in your food to every part of your body. Sargol, too, mixes with your food, to prepare it for the blood in an easily assimilated form. Thin people tell how they have gained all the way from 10 to 25 pounds a month while taking Sargol and say that for now fresh stays put. Sargol tablets are a careful combination of six of the best assimilative elements known to chemistry. They contain 40 tablets to a package, are pleasant, harmless and inexpensive, and D. E. Campbell and all other good druggists in this vicinity will be glad to give you an absolute guarantee of weight increase or money back as found in every large package.

ISLAND AUTO CLUB

Accommodation on Ferries for Cars and Canadian Highway Matters Taken Up.

In connection with the ordering of car ferries by the Canadian Northern Railway company, the Island Automobile association has taken up the matter of carriage of automobiles to and from the mainland when the proposed ferries are working from the mainland to Patricia Bay. The association has sent to the railway company a letter requesting that attention be given to proper accommodation for automobiles on the ferries.

The requirements asked are that the wharf, landing slip, and deck of the ferry be so arranged that at all stages of the tide cars may be easily driven on and off the ferry (starting with cold engines) under their own power, that the deck of the ferry to be so arranged that it will be easy to stow the cars away with covers up, and that there shall be no regulation requiring that cars put aboard must be drained of gasoline.

club is to be sought in this proposal. The secretary of the Victoria club, C. L. Harris, is going out on a membership hunt next week. He proposes to sign up every owner of an automobile in Victoria, with a view to getting the added strength necessary to carry forward the improvement proposed in connection with motor traffic on the island and in obtaining enlarged club influence in advocating the continuance of work on the Canadian highway.

TO CURE "GASSING"

French Troops Capture German Ambulance and Paraphernalia for Curing Gas-Poisoning.

Among the various important captures made by the French in the course of their great attack in Champagne none was more significant of German plans and methods than the paraphernalia of an ambulance, says a special French correspondence of the London Daily Mail. A complete post was taken at one spot, including doctors, nurses and apparatus.

The most interesting object of all is a machine for curing sufferers from gas poisoning. It consists of a cylinder with two compartments, one containing oxygen, the other an alkaline substance now being analysed. Full instructions for its use were found, and the French greatly admired the technical perfection, both of this machine and of the great supply of surgical instruments.

But the most significant detail was an inscription on the cylinder itself. It is there described as "Pattern D 1915. Improved from Model C 1912. Would seem to be proof that the use of chlorine gas in the medical war was settled at least as early as 1910. At the same place and time the French also captured an elaborate machine for distributing poisonous gas. It is worn as a knapsack over the back, and very much resembles some of the new patterns of fruit sprayer. From the cylinder flexible pipes come round under the arms of the wearer, enabling him to spray the gas in any direction he pleases. He himself wears a helmet very much of the pattern used by divers. Below the chin is a sack of oxygen, and the man breathes the air he manufactures. These knapsack sprayers are apparently supplied only to engineers attached in various force to different divisions.

RED CROSS CONCERT

Rex Theatre, Esquimalt, Another Crowded With Patrons of Another Series for Funds.

Each week finds increased interest in the Esquimalt Red Cross concerts at the Rex theatre, Esquimalt, and again many had to be turned away from the theatre owing to lack of accommodation. Rev. Father Silver presided as chairman, and an excellent programme delighted the patrons. The featured attraction of the evening was a one act, created great amusement, the actors being Miss Marjory Kitto and Miss Eleanor Hanington, both of whom acquitted themselves with distinction. This constituted perhaps the chief feature of the programme, although many other numbers of great interest were furnished. Among the artists were several seamen from one of His Majesty's ships now stationed at Esquimalt, including Petty Officer Carmody, Petty Officer Bayford, Stoker Bundy, Stoker Harris and Seaman Harding, who provided songs and dances which were greatly enjoyed. Mrs. Robert Baird and Miss Peggy Pearce sang the "Barcarole" from "Love, Tales of Hoffman," which was both artistic and popular. Sgt. Roberts and Seaman T. Creed, of the Rainbow, sang songs, and Mrs. Moore played several violin selections with distinct success. The films run off during the evening were not the least interesting part of an entertainment which was another in the series of concerts being held in aid of the Red Cross funds.

Towards the close of the evening the results of a quilt raffle were made known, the winner being announced as J. Sharratt, and the proceeds from the raffle being \$20.
